Continue to be Safer at Home

“The order is gone, the virus is not.”

Stay at home if you are sick; contact your health provider for a COVID-19 test.

Minimize travel, especially to areas considered “viral hotspots” within and beyond our state borders.

Minimize close physical contact with those outside of your household.

Wear a fabric face covering if you must be in public.

Maintain 6-foot distances with others whenever possible.

Wash your hands frequently with soap and water.

Minimize congregating in groups of more than 20 people.

Avoid touching your face.

Comply with local public health COVID-19 isolation and quarantine orders.

If you choose to visit public places, be prepared to avoid crowds and sanitize hands when leaving.
