You are responsible for complying with State and Federal laws concerning construction near or on wetlands, lakes, and streams. Wetlands that are not associated with open water can be difficult to identify. Failure to comply may result in removal or modification of construction that violates the law or other penalties or costs. For more information, visit the Department of Natural Resources wetlands identification page or contact a Department of Natural Resources Service Center.

Additional responsibilities for owners of projects disturbing one or more acre(s) of soil

I understand that this project is subject to regulations regarding erosion control and storm water management and I will comply with those standards. For more information, visit the Department of Natural Resources or contact a Department of Natural Resources Service Center.

It is the property owner's responsibility to know the location of their lot lines to ensure setback requirements are met.
