DOUGLAS COUNTY TIMBER SALE PROSPECTUS
NOTICE OF SEALED BIDS

October 24, 2017

The Douglas County Forest, Parks and Recreation Committee will receive sealed bids for the purchase of the designated stumpage on the enclosed tracts until 5:30 p.m. Tuesday, October 24, 2017 at the Douglas County Forestry Department, 9182 East Hughes Avenue, P.O. Box 211, Solon Springs, WI 54873. Bids will be opened and read at 6:00 p.m. Tuesday, October 24, 2017 at the Forestry Department Headquarters, 9182 East Hughes Avenue, Solon Springs, WI 54873.

Douglas County will award Contracts to the acceptable highest bidder pending verification and approval of each winning bid. In the event of tie bids, the successful bidder will be determined by the toss of a coin by the acting Chairperson of the Douglas County Forest, Parks, and Recreation Committee. No late bids will be considered. No bid will be considered from bidders who are in non-compliance with any current timber sale Contract with Douglas County, are delinquent in their financial obligations to Douglas County, are involved with a pending timber theft or trespass with the County, or from a bidder whose bidding privileges have been either temporarily or indefinitely revoked by the County.

Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County. For further information, bid forms, maps, or a sample Contract; please contact the Douglas County Forestry Department at (715) 378-2219.

NOTICES:

Daily Telegram – October 13, 17, 20, 2017
Northwoods Shopper – October 16, 2017

I. BIDDING: It is the responsibility of the bidder to inspect; evaluate the stumpage, examine the locations, investigate field conditions, and check Contract requirements for each tract prior to bidding. Bidders are encouraged to contact the “Prepared By” individual on the enclosed tracts for detailed information regarding each tract (see Section XX for contact information). Submission of bid reflects that the bidder has inspected the tract and clearly understands and agrees to all Contract conditions and requirements herein.

Bids for individual tracts must each be submitted on a standard “Douglas County Forestry Department Bid for Advertised Timber” form, indicating correct tract number, and be presented in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)”. An online version of the bid form reducing the chances for errors is also available at www.douglascountywi.org/forestry. Forms must be completed legibly and correctly in their entirety with all requested information required for bid consideration.

Bids must be submitted separately for each tract by indicating the advertised species, the advertised species product volume, a per product bid price for each species advertised, a total bid value for each species and product advertised, and a total tract bid value for all species and products advertised using the corresponding locations on the bid form.

Considered bids must meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed.

Bids below the minimum advertised total tract value for each species and product listed, the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

The use of an off-highway-vehicle (ATV or snowmobile) on routes or areas closed to motorized use must be approved by the Douglas County Forestry Department prior to occurrence or the operator is subject to penalty as provided by County Ordinance. If granted, permission will be authorized for pre-bidding inspection purposes only and operators shall operate in a safe, responsible, and environmentally friendly fashion. Contact the Department at (715) 378-2219 for further information.

II. BID GUARANTEE BOND: A bid guarantee for a minimum of 10-percent of the total tract bid value must accompany each bid for an individual tract as a bid guarantee bond, payable to Douglas County Forestry Department.

The bid guarantee bond must be in the form of cash, cashier’s check, certified check, money order, bank draft, personal check, or business check unless otherwise specified by the County; must be covered by sufficient funds in the account on which it is drawn once submitted to the County, and remain in effect until the Contract is executed by all parties. The County reserves the
right to investigate sufficient funds coverage on any bid guarantee bond provided. In the event that the bid guarantee bond is not covered by sufficient funds, the bidder will be forbid from being awarded the Contract.

The bid guarantee bond will be held by the County until replaced by the successful bidder’s performance bond. Bid guarantee bonds will be returned to unsuccessful bidders.

Failure by the successful bidder to provide the County with the mandatory executed Contract of sale, performance bond, current certificates of insurance, and current SFI training certificate equivalent to those conditions provided below within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**III. PERFORMANCE BOND:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide the County shall receive a performance bond in the amount of 20-percent of the total purchased tract value. Such a performance bond shall be submitted to the County for approval in the form of cash bond, written performance bond (surety bonds will not be accepted), or irrevocable letter of credit. The County reserves the right to limit the form of acceptable performance bond. The Purchaser must indicate on the bid form what form of performance bond will be provided to the County.

In the event that a cash performance bond is indicated on the bid form, the bid guarantee bond will be deposited immediately and applied towards the performance bond. The balance of the cash performance bond is to be provided by the successful bidder pursuant to those conditions provided above.

In the event that a written performance bond or irrevocable letter of credit is indicated on the bid form, the successful bidder will provide the County a written performance bond (surety bonds will not be accepted) or irrevocable letter of credit issued by a bank or insurance company which is a member of the Federal Reserve System or insured by the Federal Deposit Insurance Corporation pursuant to those conditions provided above. The written performance bond or irrevocable letter of credit shall have an expiration date of no less than 30 calendar days past the sale expiration date.

Failure by the successful bidder to provide the County with the mandatory amount and form of performance bond equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**IV. LIABILITY INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance from the insurer(s) of the successful bidder or their agents certifying coverage to the limit of $500,000.00 per occurrence and $1,000,000.00 per aggregate. Such certificate shall name the County as an additional insured and shall be submitted to the County for approval of the insurer(s), the amount, and the form. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**V. WORKERS’ COMPENSATION INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance verifying workers’ compensation coverage or proof of exemption from such coverage as provided by law. Such written certificate or verification shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or written verification or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance for workers’ compensation coverage or exemption from such coverage as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**VI. SFI TRAINING STANDARD:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall
receive a valid certificate of completion for the current Wisconsin Sustainable Forestry Initiative (SFI) training standards or comparable certification training standards of different States (depending on the successful bidder’s address of its principle place of business) as approved by the Forest Industry Safety & Training Alliance (FISTA) which can be contacted at 1-800-551-2656. Such certificate shall be in the name of the individual responsible for signing the Contract on behalf of the successful bidder, or the president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder; and shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine training records itself.

Failure by the successful bidder to provide the County with the mandatory certificate of completion for the current SFI training standards as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VII. CONTRACT EXECUTION: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive the original Contract with all required information completed with the original signature of a president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder.

Failure by the successful bidder to provide the County with the Contract as indicated above or with an incomplete, illegible, or incorrect Contract within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VIII. PAYMENT SCHEDULE: Payment of the initial advance stumpage payment or lump sum payment, is required prior to the commencement of any Contract operations other than road and landing construction activities. Removal of any products prior to receipt of the initial advance stumpage payment or lump sum payment by the County will be treated as harvested without the County’s consent or permission and subjects the Purchaser to civil and/or criminal penalties provided under Douglas County Ordinance #7.6.

The second and subsequent increment installment payments will be due to the County at the point the value of all products removed from the sale reaches 75-percent of the credit on deposit. In no event will payments due be made by the Purchaser to the County more than 15 calendar days from the date of invoice. The County reserves the right to place additional payment requirements on the Purchaser to protect its best interests or those best interests of the public.

The following plan is used by the County to determine the increment schedule required on the enclosed tracts, unless otherwise specified by the County:

<table>

<tr>
<td>$150,000.01 and OVER</td>
<td>5%(2),10%(9) Payment</td>
</tr>
</tbody>
</table>

IX. PRODUCT STANDARDS: Standard advertised products are as follows:
➤ 4” Roundwood Product - A tree, log or stick with a minimum of one 100-inch stick to a 4-inch top diameter.
➤ Whole-tree Product - All or any woody material from the sheared butt stump of all 2-inch and greater DBH trees to the tip of the tree, including all logs, sticks and branches originating from any stem associated with the tree.
➤ Softwood Sawlog Product - A tree, log or stick 9-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.
➤ Hardwood Sawlog Product - A tree, log or stick 10-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.

X. VOLUME AND WEIGHT STANDARDS: The enclosed volumes/weights of products by tract are estimates. The County provides no warranty or guarantee as to the species, product type, quality, quantity, or condition. The bidder is responsible for making these determinations and bidders should inspect and evaluate the timber contained in the enclosed tracts prior to bidding. Standard advertised volume/weight measures are as follows:
➤ A standard cord is a volume of stacked wood products including air space occupying 128 cubic feet.
A standard MBF is a volume of wood products totaling 1,000 board feet. MBF volume shall be determined using the Scribner Decimal "C" log rule.
A standard ton is a unit of weight measure equal to 2,000 pounds (907.18 kilograms).

XI. ACCESS: The Purchaser is required to complete all road construction requirements for the enclosed tracts. Location of all road, transportation, and access routes, including associated infrastructure components, for the enclosed tracts are designated by the County and are limited to what is displayed on the maps and in the Contract conditions. The County does not conduct road appraisals. All road and infrastructure construction cost estimates and actual expenses are the responsibility of the Purchaser and bidders should inspect and evaluate these based on Contract requirements and field conditions prior to bidding.

XII. EXTENSIONS: It is expressly understood by the bidder that Contract extensions are not guaranteed and full performance on a Contract is expected prior to the initial expiration date.

XIII. COMMENCEMENT OF OPERATIONS: Operations may not commence on any tract before all Contract execution, insurance, SFI training, financial, and additional required conditions have been successfully met by the Purchaser and approved by the County.

XIV. RECEIPT OF REQUIREMENTS: The bidder and/or successful bidder bears all responsibility for postal or delivery delays outside of the County’s control for all requirements to be received by the County prior to bid consideration and/or Contract execution, including but not limited to; the bid, the bid guarantee bond, the performance bond, liability insurance, workers’ compensation insurance, SFI training standard, the Contract, payments, and all other correspondence, documents, and requirements.

XV. DIRECT SALES: Periodically Douglas County will offer direct stumpage sales. Direct sales are available on a first come, first served basis with the sale offered at or above the total appraised value with no percentage reductions, according to the WDNR Timber Sale Handbook. Please contact the Douglas County Forestry Department at (715) 378-2219 for direct sale availability and/or additional information.

XVI. IRRESPONSIBLE BIDDER: A bidder deemed by the County to be an irresponsible bidder may be refused the opportunity to bid upon or obtain Douglas County timber sales for a pre-determined set time period as determined by the County or indefinitely as deemed in the best interest of the County.

XVII. FOREST CERTIFICATION: The Douglas County Forest, including the areas encompassed by the enclosed tracts, is certified to the standards of the Forest Stewardship Council ® (FSC ® C006090) FSC 100% and the Sustainable Forestry Initiative ® SFI-01617 SFI 100%. Forest products harvested from the Douglas County Forest may be delivered to the destination facility as certified as long as the Contractor hauling the forest products is chain-of-custody (COC) certified or covered under a COC certificate from the destination facility. The Purchaser assumes all responsibility for maintaining COC after leaving the area encompassed by any individual tract.

XVIII. EAB QUARantine: As of August 2013, all of Douglas County has been placed under a Wisconsin Department of Agriculture, Trade, and Consumer Protection (DATCP) and United States Department of Agriculture (USDA) quarantine for Emerald Ash Borer (EAB). Quarantine compliance, including rules and regulations regarding the transport and utilization of ash products, is the full responsibility of the Purchaser. For additional information on the quarantine, including compliance agreements, please contact DATCP at 608-224-4573 and/or the USDA-APHIS at 608-231-9553.

XIX. TRUCK HAULING INFORMATION: The number of Douglas County townships that have developed or are in the process of developing additional policies in the form of regulations to protect their investments in and limit damage caused by heavy equipment to their local township roads continues to increase. The Douglas County Forestry Department has taken an active role in working with these townships in an attempt to alleviate concerns. The Department believes that their intent is not to restrict harvesting and subsequent hauling of timber, but a response to repetitive and inappropriate use by heavy trucks and equipment. Hauling Contractors need to be aware that public relations are vital to their business and inconsiderate and inappropriate actions reflect poorly on all of us in the forest industry.

All required permits and conditions for use of any public roadways other than those managed by the Douglas County Forestry Department are the responsibility of the Purchaser to obtain, keep current, and comply with. The County bears no responsibility or assures guaranteed use of any public roadway outside of its scope of authority used for the purpose of accessing any of the enclosed tracts and any additional requirements, restrictions, conditions, or terms enacted by any roadway authority are the
responsibility of the Purchaser. The County recommends contacting the appropriate roadway authority prior to bidding on any of the enclosed tracts.

Below are the town chair contact information for each township and one village that contain Douglas County forest and special use land within their boundaries. Contacts for the Douglas County Highway Department and the Forestry Department are also included. Bidders should refer to this information as they prepare bids for the enclosed tracts. This information is up-to-date and current at the time of printing only, please contact the town/village, Sale Administrator, or see the “Official E-Directory” link on the Douglas County website [www.douglascountywi.org](http://www.douglascountywi.org) for updates and/or additional information.

Total Tract Bid Value

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

Bid Guarantee Bond Amount
10% of the Total Tract Bid Value

In the form of:  [ ] Cash  [ ] Business/Personal Check  [ ] Cashier’s/Certified Check  [ ] Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

[ ] Cash Performance Bond  [ ] Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a:  [ ] Corporation  [ ] Partnership  [ ] Sole Proprietorship (individual)

Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

(a) For Ticket Scale Tracts:

   ➢ Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
   ➢ Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
   ➢ Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
   ➢ Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
   ➢ Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
   ➢ Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
   ➢ Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
   ➢ Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
   ➢ Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

(b) For Lump Sum Scale Tracts:

   ➢ Write the words “LUMP SUM” once in column A (under Species).
   ➢ Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

The Bid Form MUST BE completed in its entirety---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

- Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

The Bid Form MUST BE completed in its entirety---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
TO DOUGLAS COUNTY FOREST, PARKS, AND RECREATION COMMITTEE:

Submitted in response to the notice of Timber Stumpage for Sale published in the Daily Telegram on October 13, 17, & 20, 2017 and the Northwoods Shopper on October 16, 2017, I hereby submit the following bid for the advertised timber stumpage to be cut and sold from Douglas County lands described as follows:

– See reverse side of form for instructions on how to complete –

<table>

Total Tract Bid Value

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

**Bid Guarantee Bond Amount**

10% of the Total Tract Bid Value

In the form of:  
- [ ] Cash  
- [ ] Business/Personal Check  
- [ ] Cashier’s/Certified Check  
- [ ] Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

- [ ] Cash Performance Bond  
- [ ] Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a:  
- [ ] Corporation  
- [ ] Partnership  
- [ ] Sole Proprietorship (individual)

**Representative (Print Name)**

**Title**

**Organization Name**

**Organization (or Representative) Street Address**

**City**  
**State**  
**Zip**  
**Contact Phone Number**

**Email Address**  
**Representative (Signature)**

**Date**
**Instructions on how to complete the Bid Form**

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

   (a) For Ticket Scale Tracts:

   - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
   - Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
   - Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
   - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
   - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
   - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
   - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
   - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
   - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

   (b) For Lump Sum Scale Tracts:

   - Write the words “LUMP SUM” once in column A (under Species).
   - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

   * For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

**The Bid Form MUST BE completed in its entirety**

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
September 2017

To: Douglas County Timber Sale Contractors

RE: Second Offering Tracts

Dear Contractor:

This prospectus contains 6 tracts that were offered but did not sell during the June 20, 2017 auction. All of these tracts are being offered here for the second time.

The 6 tracts are as follows:

Tract #11-17 (Jason Jordan)
Tract #13-17 (Jason Jordan)
Tract #14-17 (Alex Rowe)
Tract #15-17 (Alex Rowe)
Tract #16-17 (Alex Rowe)
Tract #17-17 (Jason Jordan)

In the event they do not sell at the October 24, 2017 auction, they will be made available as first-come first-served, over-the-counter direct sales at appraised values. Appraised values will be 15% greater than the advertised minimum values contained herein.

If you are interested in any of these tracts, either as bid sales now or possible direct sales later, please contact the Department Forester listed above. Thank you.

Sincerely,

Jon Harris
Director of Forestry and Natural Resources

DCFD:jh
REMINDER

Bid forms are also available online. The online version takes less time to complete and reduces the chance for errors and rejected bids.

To access the online bid form go to:
www.douglascountywi.org/forestry
and click on
"Forestry & Natural Resource Management"
then
"Timber Sale Program"

Please contact the office with any questions on how to access or use the online form.
This map shows approximate locations of tracts offered for the October 24, 2017 Timber Auction. For more precise tract information, refer to the individual tract maps in the prospectus. This map is for reference only.

</tbody>
</table>

The Aspen volume contains approximately 88% Aspen, 5% Red Maple, 4% Jack Pine, 2% Balsam Fir, and 1% Misc.
TRACT 27-17 (CMRB) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 9ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.
   ➢ Note that lowland portions may be limited to unusually dry or frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all aspen, red maple, jack pine, and white birch stems; and all balsam fir stems that contain at a minimum, one 4" Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all red oak, white pine, white spruce, and red pine stems; and all balsam fir stems that do not contain at a minimum, one 4" Roundwood Product.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required.
   ➢ One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➢ Access road system may be utilized for product decking.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing access road system is approximately 6,000 feet.
   ➢ The entire 6,000 feet will require "Class 3" reconstruction before use.

G. OTHER -
   ➢ Several wildlife openings adjacent to the harvest area are designated as equipment restriction zones. All slash must be pulled back at least 8 feet from the openings edges as directed by the Sale Administrator.
The Aspen volume contains approximately 87% Aspen, 7% Red Maple, 3% White Spruce, 2% Basswood and 1% Misc.
TRACT 09-17 (FALLOUT) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 2ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 55% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 45% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all sugar maple, red maple, aspen, black ash, white ash, white birch, balsam fir, ironwood, cherry, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine, black spruce, tamarack, red oak, and elm stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required.
   ➢ Access road system may be utilized for product decking.
   ➢ Two landing locations are permitted as designated.
   ➢ Landing directly off Engine Hill Road shall be restricted to small, temporary back-in turn-around. Temporary culvert installation in road ditch approach may be necessary. Road ditch approach shall be removed and ditch re-shaped upon sale completion.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 6,500 feet. Approximately 4,800 feet of existing access road and 1,700 feet of new access road.
   ➢ Portions of the existing access road may require minimal “Class 1” reconstruction before use.
   ➢ The entire 1,700 feet of new access road will require “Class 3” new construction. Portions may require freeze down before use.
   ➢ One “Freeze Down Crossing” shall be constructed as designated.
   ➢ An “Earth Berm” shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➢ The access road for this sale is currently under contract as access for Douglas County Forestry Department timber sale #4267. Contractors are encouraged to plan operations accordingly and take the necessary steps to maintain communications and minimize conflict throughout all operations. Contact the Sale Administrator for further information.

TRACT 15-17 (KNOTTY KNAT) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 8ft².
   ➢ Harvest unit 2 has a strip clear-cut harvest prescription with an estimated average residual basal area of 9ft².
   ➢ Harvest unit 3 has a shelterwood harvest prescription with an estimated average residual basal area of 35ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all non-marked aspen, black ash, red maple, white birch, sugar maple, yellow birch, elm, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all ash, red maple, white birch, and aspen stems in each cut strip.
   ➢ In harvest unit 3, fell all non-marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all black spruce and white spruce stems; and all green marked stems.
   ➢ In harvest unit 2, reserve and leave undamaged all white cedar, black spruce, yellow birch, and elm stems within each cut strip. In each reserve strip, reserve and leave undamaged all species stems. Minimize machine operations on the root systems of all reserve species, especially white cedar.
   ➢ In harvest unit 3, reserve and leave undamaged all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenence" is required for all harvest units.
   ➢ In harvest unit 2, the sale administrator will layout and flag in a skid trail plan between the cut strips at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails for the respective harvest areas. Reserve strips are designated as equipment restriction zones.
   ➢ Two skid trail "Freeze Down Crossings" shall be constructed as designated. All equipment operation and skidding in these portions of the sale areas shall be limited to these crossings.
   ➢ Access road system may be utilized for product decking.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The access road is gated.
   ➢ All access (in and out) shall be from the south off Moose Road. No access from the north off Summit Trail shall be permitted.
   ➢ The total length of the existing access road system is approximately 10,600 feet.
   ➢ Portions may require minimal "Class 3" reconstruction before use.
   ➢ Portions will require freeze down before use.
   ➢ Two "Freeze Down Crossings" shall be constructed as designated.

G. OTHER -
   ➢ In harvest unit 2, the outside boundary of the entire harvest unit is marked with red paint and interior cut strip boundaries are marked with an orange vertical slash on the inside face of border trees.
   ➢ Due to the lowland/wetland site characteristics of some of these stands, each and every favorable cold-weather opportunity during the term of contract should be taken full advantage of to maximize operational opportunity for this harvest.

  ➢ Reserve and leave undamaged all white pine, balsam fir, yellow birch, black spruce, tamarack, and elm stems; and all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
  ➢ “Slashing Maintenance” is required.
  ➢ Access road system may be utilized for product decking.
  ➢ Three landing locations are permitted as designated.

F. ACCESS AND ROADS -
  ➢ The total length of the access road system is approximately 11,000 feet. Approximately 8,100 feet of existing access road and 2,900 feet of new access road.
  ➢ The 8,100 feet of existing access road contains 5,600 feet of "Class 1" road and 2,500 feet of "Class 3" road.
  ➢ Portions of the existing "Class 3" access road will require minimal "Class 3" reconstruction before use.
  ➢ The entire 2,900 feet of new access road will require "Class 3" new construction.
  ➢ One permanent "Culvert Crossing" shall be constructed as designated. Please see contract attachment.
  ➢ An "Earth Berm" is located on the access road and shall be reinstalled at the same designated location.

G. OTHER -
  ➢ The main access road for this sale is currently under contract as access for Douglas County Forestry Department timber sale #4336. Contractors are encouraged to plan operations accordingly and take the necessary steps to maintain communications and minimize conflict throughout all operations. Contact the Sale Administrator for further information.

The Mixed HW volume contains approximately 48% Red Maple, 14% Sugar Maple, 12% White Birch, 12% Ash, 6% Aspen, and 8% Misc.
TRACT 30-17 (SCRAPS) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a overstory removal harvest prescription with no residual basal area.
   ➢ Harvest unit 2 has a clear-cut with residual harvest prescription with an estimated average residual basal area of 30ft².

B. SEASONAL RESTRICTIONS -
   ➢ In harvest unit 2, all harvesting operations are not restricted by season or time of the year on an estimated 30% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 70% of the harvest area (lowlands).
   ➢ In harvest unit 1, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all red maple, white birch, sugar maple, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all red maple, sugar maple, white birch, ash, aspen, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all white pine stems and all advanced sub-merchantable regeneration.
   ➢ In harvest unit 2, reserve and leave undamaged all red oak, yellow birch, white spruce, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashingle Maintenance" is required for harvest unit 2.
   ➢ In harvest unit 1, all harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller buncher felling equipment (hot saw type or similar) is prohibited.
   ➢ In harvest unit 2, all harvesting operations are not restricted by skidding or forwarding system.
   ➢ In harvest unit 1, the sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas. Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ In harvest unit 1, one landing location shall be identified during the pre-operations meeting. Access road system may be utilized for product decking.
   ➢ In harvest unit 2, one landing location is permitted as designated.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 2,000 feet. Approximately 200 feet of existing access road and 1,800 feet of new access road.
   ➢ Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   ➢ The entire 1,800 feet of new access road will require “Class 3” new construction.
   ➢ An “Earth Berm” shall be installed at a location designated by the Sale Administrator.
   ➢ The Bounty Road is a County Forest Road and a winter snowmobile trail.

G. OTHER -
   ➢ The new access road and landing location in harvest unit 2 are not marked in the field. The Sale Administrator will locate, identify, and mark these in during the pre-operations meeting.
   ➢ Harvest unit 1 includes road right-of-way clearing for the Bounty Road.

TRACT 23-17 (GLACIAL OUTHOUSE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   > Clear-cut harvest prescription with an estimated average residual basal area of 9ft².

B. SEASONAL RESTRICTIONS -
   > All harvesting operations are not restricted by season or time of the year on an estimated 80% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 20% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -
   > Fell all non-marked sugar maple, red maple, aspen, black ash, white ash, white birch, basswood, white spruce, ironwood, cherry, and miscellaneous species stems; and all greater than 10-inch DBH red oak stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   > Reserve and leave undamaged all white pine, balsam fir, yellow birch, black spruce, tamarack and elm stems; all green marked stems; and all 10-inch DBH and less red oak stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   > "Complete Vegetation Maintenance" is required.
   > One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   > Access road system shall be utilized for product decking.
   > Two landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   > The access road is gated.
   > The total length of the access road system is approximately 10,100 feet. Approximately 7,800 feet of existing access road and 2,300 feet of new access road.
   > The entire 7,800 feet of existing "Class 3" access road will require "Class 2" upgraded construction.
   > The entire 2,300 feet of new access road will require "Class 3" new construction.
   > One permanent new "Rock Ford Crossing" shall be constructed as designated. Please see contract attachment.
   > One permanent existing "Rock Ford Crossing" shall be reconstructed as designated. Contact the Sale Administrator for additional information on reconstruction requirements.
   > Eight permanent "Culvert Crossings" shall be constructed as designated. Please see contract attachment.

G. OTHER -
   > WDNR water crossing permits have been secured by the County.
   > Note substantial road building crossing requirements requiring adequate road building equipment and capability.
   > The access road for this sale is currently under contract as access for Douglas County Forestry Department timber sale #4319 and also being offered as access for Tract #24-17. Contractors are encouraged to plan operations accordingly and take the necessary steps to maintain communications and minimize conflict throughout all operations. Contact the Sale Administrator for further information.

TRACT 24-17 (SWEET DREAMS) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
  ➢ Seed tree harvest prescription with an estimated average residual basal area of 11ft².

B. SEASONAL RESTRICTIONS -
  ➢ All harvesting operations are not restricted by season or time of the year; on an estimated 80% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only; on an estimated 20% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -
  ➢ Fell, skid, and haul all unmarked sugar maple, red maple, aspen, black ash, white ash, white birch, basswood, white spruce, balsam fir, tamarack, black spruce, ironwood, cherry and miscellaneous species stems that meet the product and utilization standards as per product bid.
  ➢ Fell, skid, and haul all greater than 7-inch DBH red oak stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
  ➢ Reserve and leave undamaged all white pine and yellow birch stems.
  ➢ Reserve and leave undamaged all green marked stems.
  ➢ Reserve and leave undamaged all red oak stems less than 7-inch DBH.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
  ➢ "Complete Vegetation Maintenance" is required.
  ➢ Access road system may be utilized for product decking.
  ➢ One landing location is permitted as designated.

F. ACCESS AND ROADS -
  ➢ The access road is gated.
  ➢ The total length of the access road system is approximately 8,300 feet of existing "Class 3" access road.
  ➢ The entire length of the existing "Class 3" access road will require upgrade to "Class 2" access road.
  ➢ Nine permanent "Culvert Crossings" shall be constructed. Please see contract attachment.
  ➢ Timber sales are located to the north and west of this timber sale and will be utilizing the existing "Class 3" access road for hauling.

G. OTHER -
The Mixed HW volume contains approximately 55% Scrub Oak, 35% Aspen, 6% Jack Pine, 2% Red Pine, and 2% Misc.
TRACT 25-17 (WHEN IN ROME) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 9ft2.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all non-marked aspen, red maple, white birch, scrub oak, jack pine, and miscellaneous species stems; and all orange marked red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all green marked stems; and all non-marked red pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required.
   ➢ Portions of the access road system may be be utilized for product decking.
   ➢ Up to seven landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 6,600 feet. Approximately 5,300 feet of existing access road and 1,300 feet of new access road.
   ➢ Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   ➢ The entire 1,300 feet of new access road will require "Class 3" new construction.
   ➢ Portions of the access road system utilize winter snowmobile and summer ATV trails.
   ➢ Portions of the access road system is gated.
   ➢ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➢ Access across land under other ownership has been secured by the County.
   ➢ A transmission line and associated right-of-way is located directly adjacent to the harvest units on the east side of Highway 53.
   ➢ SPECIAL REQUIREMENT - All harvesting operations shall first commence in harvest units A and B. No harvesting operations shall be permitted in any other harvest unit until all operations have been satisfactorily completed in units A and B. This includes removing and hauling all products harvested from units A and B. Contact the Sale Administrator for further information.

The Mixed HW volume contains approximately 22% Red Maple, 19% Red Oak, 18% Ash, 18% Basswood, 12% Sugar Maple, 6% Balsam Fir, 3% Aspen, and 2% Misc.
TRACT 26-17 (COMBO MOMBO) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -  
   ➢ Harvest unit 1 has an overstory removal and seed tree harvest prescription with an estimated average residual basal area of 19 ft².  
   ➢ Harvest unit 2 has a shelterwood harvest prescription with an estimated average residual basal area of 30 ft².

B. SEASONAL RESTRICTIONS -  
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 50% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 50% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -  
   ➢ In both harvest units, fell all non-marked sugar maple, red maple, aspen, ash, basswood, and miscellaneous species stems; all non-marked greater than 6-inch DBH red oak, white birch, and yellow birch stems, and all balsam fir stems that contain at a minimum, one 4" Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -  
   ➢ In both harvest units, reserve and leave undamaged all white pine and white spruce stems; all green marked species stems; all 6-inch and less DBH red oak, white birch, and yellow birch stems; and all balsam fir stems that do not contain at a minimum, one 4" Roundwood Product.

E. HARVEST AND OPERATIONAL REQUIREMENTS -  
   ➢ "Slashing Maintenance" of ironwood stems is required for both harvest units. Pulling stems with root masses out of the ground is the preferred method.  
   ➢ Access road system may be utilized for product decking.  
   ➢ Three landing locations are permitted as designated.

F. ACCESS AND ROADS -  
   ➢ No new access roads shall be constructed.  
   ➢ The total length of the existing access road system is approximately 2,300 feet.  
   ➢ The entire 2,300 feet will require "Class 3" reconstruction.  
   ➢ An "Earth Berm" is located on the northern access road for harvest unit 1 and shall be reinstalled at the same designated location upon sale completion.  
   ➢ Upon sale completion, the town road shall be re-ditched as directed by the Sale Administrator.  
   ➢ Ole Larson Road is a County Forest Road.

TRACT 29-17 (LOOSE ENDS) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 20 ft².
   - Harvest unit 2 has a overstory removal harvest prescription with an estimated average residual basal area of 20 ft².
   - Harvest unit 3 has a shelterwood harvest prescription with an estimated average residual basal area of 20 ft².

B. SEASONAL RESTRICTIONS -
   - In harvest unit 1, all harvesting operations are not restricted by season or time of the year on an estimated 90% of the harvested area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 10% of the harvested area (lowlands).
   - In harvest unit 2, all harvesting operations shall be limited to frozen ground conditions only.
   - In harvest unit 3, all harvesting operations are permitted from September 1st to November 30th.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all aspen, white birch, sugar maple, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell, skid, and haul all red oak, sugar maple, basswood, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 3, fell, skid, and haul all non-marked red oak, sugar maple, basswood, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all white pine and red oak stems.
   - In harvest unit 2, reserve and leave undamaged all white pine stems and all advanced sub-merchantable regeneration.
   - In harvest unit 3, reserve and leave undamaged all green marked species stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - “Slashing Maintenance” is required for harvest unit 1.
   - In harvest unit 2, all harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller buncher felling equipment (hot saw type or similar) is prohibited.
   - In harvest units 1 and 3, all harvesting operations are not restricted by skidding or forwarding system.
   - In harvest unit 2, the sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas. Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   - In harvest unit 3, operational soil disturbance strategies to promote red oak regeneration will be discussed at the time of the pre-operations meeting.
   - In harvest unit 1, one landing location is permitted as designated.
   - In harvest unit 2, the access road system shall be utilized for product decking.
   - In harvest unit 3, one landing location is permitted as designated.

F. ACCESS AND ROADS -
   - No new access roads shall be constructed.
   - The total length of the existing access road system is approximately 3,500 feet.
   - 1,200 feet of the existing access road shall require “Class 2” reconstruction before use.
   - 2,300 feet of the existing access road shall require “Class 3” reconstruction before use.
   - An “Earth Berm” is located on the harvest unit 1 access road and shall be reinstalled at the same designated location upon sale completion.

The Ash volume contains approximately 90% Ash, 5% Red Maple, 2% Aspen, 1% Balsam Fir, 1% Black Spruce, and 1% Misc.
A. PRESCRIPTION -
- Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 37 ft².
- Harvest unit 2 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 50 ft².

B. SEASONAL RESTRICTIONS -
- All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
- Fell all red maple, aspen, balsam fir, black spruce, basswood, and miscellaneous species stems; and all greater than 6-inch DBH ash stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
- Reserve and leave undamaged all yellow birch, American elm, red oak, and white cedar stems; and all 6-inch DBH and less ash stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
- All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- Two skid trail crossings shall be constructed, one to access each harvest unit as designated. All equipment operation and skidding in these portions of the sale areas shall be limited to these crossings. The sale administrator will locate and flag in these skid trails at the time of the pre-operations meeting.
- Access road system may be utilized for product decking.
- Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
- The total length of the access road system is approximately 5,700 feet. Approximately 5,280 feet of existing access road and 420 feet of new access road.
- The entire 5,260 feet of existing access road will require “Class 3” reconstruction.
- The entire 420 feet of new access road will require “Class 3” new construction.
- Portions of the access road utilize a winter snowmobile trail.
- One “Freeze Down Crossing” shall be constructed as designated. This crossing will require installing temporary timber mats. Contact the Sale Administrator for further information.
- Two “Earth Berms” are located on the existing access road and will require removal prior to operations.
- One “Earth Berm” shall be installed at a location designated by the Sale Administrator upon sale completion.

![Map of Gordon Flowage Area]
TRACT 37-17 (THE ASPEN) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 482.
   - Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 21ft2.

B. SEASONAL RESTRICTIONS -
   - In harvest unit 1, all harvesting operations are not restricted by season or time of the year on an estimated 80% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 20% of the harvest area (lowlands).
   - In harvest unit 2, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all aspen, red maple, ash, scrub oak, balsam fir, tamarack, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell all red maple, white birch, and miscellaneous species stems; and all less than 17-inch DBH red oak stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all red oak, cedar, yellow birch, white birch, red pine, white pine, and jack pine stems.
   - In harvest unit 2, reserve and leave undamaged all white birch, white pine, and red pine stems; all 17-inch DBH and greater red oak stems; and all ash stems in that portion of the harvest unit located south and east of Flowage Road.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - “Slashing Maintenance” is required for harvest unit 1.
   - All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   - One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. The sale administrator will locate and flag in this skid trail at the time of the pre-operations meeting.
   - Four landing locations are permitted as designated.
   - Harvest unit 2 landing will be restricted to a small back-in turn-around. Upon sale completion, the town road shall be re-ditched as directed by the Sale Administrator.
   - Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 9,925 feet. Approximately 7,150 feet of existing access road and 2,775 feet of new access road.
   - Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   - The entire 2,775 feet of new access road will require “Class 3” new construction.
   - Two “Earth Berms” shall be installed at locations designated by the Sale Administrator.
   - Twin Bridges Road is a County Forest Road and winter snowmobile trail.

G. OTHER -
   - The North Country Scenic Trail runs through a portion of harvest unit 1.
   - Minimize equipment operation and felling on or across the North Country Scenic Trail. Leave all blue marked trees, trail markers, and signs undamaged. All slash must be pulled back at least 8 feet from the trail edge. Contact the Sale Administrator for further information.

The White Birch volume contains approximately 49% White Birch, 15% Sugar Maple, 8% Ash, 8% Balsam Fir, 7% Red Oak, 6% Aspen, 4% Red Maple and 3% Misc.
TRACT 38-17 (ANNAS JEANS) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a seed tree harvest prescription with an estimated average residual basal area of 35f2.
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 9f2.

B. SEASONAL RESTRICTIONS -
   ➢ In harvest unit 1, no harvesting operations shall be permitted from April 1st to May 31st.
   ➢ In harvest unit 2, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all non-marked red oak, aspen, white birch, red maple, sugar maple, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all white birch, ash, sugar maple, balsam fir, aspen, and red maple stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all green marked stems and all spruce, red pine, white pine, and cedar stems.
   ➢ In harvest unit 2, reserve and leave undamaged all spruce, red pine, white pine, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for both harvest units.
   ➢ One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➢ Access road system may be utilized for product decking.
   ➢ Up to two landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ The total length of the existing access road system is approximately 3,800 feet.
   ➢ The entire 3,800 feet of will require "Class 3" and "Class 4" new construction.
   ➢ Portions may require freeze down before use.
   ➢ Upon sale completion, an "Earth Berm" shall be installed at a location designated by the Sale Administrator and the town road shall be re-ditched as directed by the Sale Administrator.

G. OTHER -
   ➢ The new access road, crossing location, and landing locations are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

TRACT 32-17 (BURMA BIRCH & BOG) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 11ft².
   - Harvest unit 2 has a seed tree harvest prescription with an estimated average residual basal area of 30ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all red maple, white birch, aspen, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell, skid, and haul all red maple and miscellaneous species stems; and all 8-inch and greater DBH ash stems, that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all red oak, white pine, and cedar stems.
   - In harvest unit 2, reserve and leave undamaged all elm and cedar stems; and all less than 8-inch DBH ash stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for harvest unit 1.
   - Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 5,700 feet. Approximately 3,700 feet of existing access road and 2,000 feet of new access road.
   - Portions of the existing access road shall require "Class 3" reconstruction before use.
   - The entire 2,000 feet of new access road will require "Class 3" new construction.
   - Significant portions of both the existing and new access road will require freeze down before use.
   - One "Freeze Down Crossing" shall be constructed as designated.
   - An "Earth Berm" is located on the access road and shall be reinstalled at the same designated location.

TRACT 14-17 (BACHELOR PAD) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 24 ft².
   - Harvest unit 2 has a strip clear-cut harvest prescription with an estimated average residual basal area of 16 ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all non-marked aspen, red maple, white birch, sugar maple, yellow birch, elm, balsam fir, black spruce, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell, skid, and haul all ash, red maple, yellow birch, white birch, elm, balsam fir, and black spruce stems in each cut strip.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all white cedar and white pine stems; and all green marked stems.
   - In harvest unit 2, reserve and leave undamaged all white cedar and white pine stems within each cut strip. In each reserve strip, reserve and leave undamaged all species stems. Minimize machine operations on the root systems of all reserve species, especially white cedar.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for both harvest units.
   - In harvest unit 2, the sale administrator will layout and flag in a skid trail plan between the cut strips at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails for the respective harvest areas. Reserve strips are designated as equipment restriction zones.
   - Access road system may be utilized for product decking.
   - One landing location is permitted as designated.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 11,700 feet. Approximately 8,100 feet of existing access road and 3,600 feet of new access road.
   - A portion of the existing access road will require "Class 2" reconstruction.
   - The entire 3,600 feet of new access road will require "Class 3" new construction. Significant portions will require freeze down before use.
   - An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   - In harvest unit 2, the outside boundary of the entire harvest unit is marked with red paint and interior cut strip boundaries are marked with an orange vertical slash on the inside face of border trees.
   - Due to the lowland/wetland site characteristics of these stands, each and every favorable cold-weather opportunity during the term of contract should be taken full advantage of to maximize operational opportunity for this harvest.

TRACT 16-17 (BANANA BOG) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 2ft².
   - Harvest unit 2 has a shelterwood harvest prescription with an estimated average residual basal area of 4ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all non-marked aspen, red maple, white birch, sugar maple, yellow birch, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell all non-marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all white cedar, red pine, and white pine stems; all green marked stems; and all advanced sub-merchantable red oak and yellow birch stems.
   - In harvest unit 2, reserve and leave undamaged all white cedar, red pine, and white pine stems; and all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for harvest unit 1.
   - Three skid trail crossings shall be constructed as designated. All equipment operation and skidding in these portions of the sale area shall be limited to these crossings.
   - Access road system may be utilized for product decking.
   - Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 14,700 feet. Approximately 12,100 feet of existing access road and 2,600 feet of new access road.
   - Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   - The entire 2,600 feet of new access road will require “Class 3” new construction.
   - Significant portions of the entire access road will require freeze down before use.
   - Two “Freeze Down Crossings” shall be constructed as designated.
   - An “Earth Berm” shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   - Note skidding distances.

Little Black River

Summit Trail
TRACT 31-17 (SUMMIT SUMMER) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 8 ft².
   - Harvest unit 2 has an overstory removal harvest prescription with an estimated average residual basal area of 12 ft².
   - Harvest unit 3 has an all-aged single tree selection harvest prescription with an estimated average residual basal area of 7 ft².
   - Harvest unit 4 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 2 ft².

B. SEASONAL RESTRICTIONS -
   - In harvest units 1, 3, and 4, all harvesting operations are not restricted by season or time of the year on an estimated 40% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 60% of the harvest area (lowlands).
   - In harvest unit 2, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest units 1 and 4, fell, skid, and haul all aspen, white birch, red maple, sugar maple, basswood, ash, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell, skid, and haul all 8-inch and greater DBH species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 3, fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest units 1 and 4, reserve and leave undamaged all red oak, yellow birch, white pine, and elm stems.
   - In harvest unit 2, reserve and leave undamaged all species stems less than 8-inch DBH and all advanced sub-merchantable regeneration.
   - In harvest unit 3, reserve and leave undamaged all non-marked species stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - “Slashing Maintenance” is required for harvest units 1, 3, and 4.
   - In all harvest units, all harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller buncher felling equipment (hot saw type or similar) is prohibited.
   - In harvest unit 2, the sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas. Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   - In harvest units 1 and 2, three landing locations are permitted as designated.
   - In harvest units 3 and 4, the access road system shall be utilized for product decking.

F. ACCESS AND ROADS -
   - Kestrel Road is a County Forest Road.
   - The total length of the access road system is approximately 3,400 feet. Approximately 2,300 feet of existing access road and 1,100 feet of new access road.
   - Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   - The entire 1,100 feet of new access road will require “Class 3” new construction.
   - In harvest unit 1, an “Earth Berm” shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   - The internal boundary between harvest units 3 and 4 is indicated by a double orange slash on the interior face of border trees.
   - Access roads and landing locations are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

TRACT 39-17 (MONEY MAKER) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut with reserves harvest prescription with an estimated average residual basal area of 30 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all ash stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all other species stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required.
   ➢ Up to three landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 10,940 feet. Approximately 7,940 feet of existing access road and 3,000 feet of new access road.
   ➢ Portions of the existing access road may require minimal reconstruction before use.
   ➢ The entire 3,000 feet of new access road will require “Class 4” new construction. Portions will require freeze down before use.
   ➢ An “Earth Borm” shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➢ The new access road and landing locations are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.
   ➢ Due to the lowland/wetland site characteristics of this stands, each and every favorable cold-weather opportunity during the term of contract should be taken full advantage of to maximize operational opportunity for this harvest.

TRACT 13-17 (LAST MINUTE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
- Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 7ft².
- Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 31ft².

B. SEASONAL RESTRICTIONS -
- All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
- In both harvest units, fell, skid, and haul all tamarack, red maple, white spruce, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
- In both harvest units, fell, skid, and haul all less than 14-inch DBH scrub oak and red oak stems.
- In both harvest units, fell, skid, and haul all black spruce stems that contain at a minimum, two 4” Roundwood Products.

D. TREES DESIGNATED FOR LEAVING -
- In both harvest units, reserve and leave undamaged all red pine, jack pine, yellow birch, and white birch stems; all 14-inch and greater DBH scrub oak and red oak stems; and all black spruce stems that do not contain at a minimum, two 4” Roundwood Products.
- In both harvest units, reserve and leave undamaged advanced sub-merchantable tamarack and black spruce regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
- All harvesting operations shall be limited to short-wood/cut-to-length operations only. Shaared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
- Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
- Access road system may be utilized for product decking.
- Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
- The total length of the access road system is approximately 2,500 feet.
- The entire 2,500 feet will require “Class 4” new construction.
- Significant portions will require freeze down before use.
- An “Earth Berm” shall be installed at a location designated by the Sale Administrator.

TRACT 17-17 (LUCKY SHOT) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 28ft².
   ➢ Harvest unit 2 has an all-aged single tree selection thinning harvest prescription with an estimated average residual basal area of 73ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all aspen, red maple, basswood, sugar maple, ash, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell all orange marked stems and all stems within the designated gaps. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, yellow birch, white birch, white spruce, hemlock, and white pine stems.
   ➢ In harvest unit 2, reserve and leave undamaged all non-marked species stems and all purple marked gap boundary stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Complete Vegetation Maintenance” is required for all ironwood and musclewood stems in both harvest units.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller buncher felling equipment (hot saw type or similar) is prohibited.
   ➢ One landing location is permitted as designated.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 20,000 feet. Approximately 17,500 feet of existing access road and 2,500 feet of new access road.
   ➢ The entire 17,500 feet of existing access road will require “Class 3” reconstruction.
   ➢ The entire 2,500 feet of new access road will require “Class 3” new construction.
   ➢ Significant portions will require freeze down before use.
   ➢ One “Freeze Down Crossing” shall be constructed as designated.

G. OTHER -
   ➢ Note skidding distances.
   ➢ Harvest unit 1 boundary is designated with orange double ringed trees.
   ➢ Harvest unit 2 gap boundaries are designated with a purple slash on the outside face of the border trees and 1 purple dot on the inside face.

The Black Spruce volume contains 54% Black Spruce and 46% Tamarack. The Mixed HW volume contains 50% Red Maple, 24% Balsam Fir, 19% Ash, and 7% Aspen. The Red Pine volume contains 55% Red Pine, 44% White Pine, and 1% White Spruce.
TRACT 33-17 (SNAKEWOOD) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 10 ft².
   - Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 20 ft².
   - Harvest unit 3 has a seed tree harvest prescription with an estimated average residual basal area of 23 ft².

B. SEASONAL RESTRICTIONS -
   - In harvest units 1 and 2, all harvesting operations shall be limited to frozen ground conditions only.
   - In harvest unit 3, all harvesting operations are limited to non-frozen/non-snow covered ground conditions.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest units 1 and 2, fell all red maple, balsam fir, ash, aspen, and miscellaneous species stems; and all black spruce and tamarack stems that contain at a minimum, two 4" Roundwood Products. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   - In harvest unit 3, fell, skid, and haul all non-marked red pine, white pine, white spruce, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest units 1 and 2, reserve and leave undamaged all red pine, jack pine, white pine, scrub oak, white birch, and yellow birch stems; and all black spruce and tamarack stems that do not contain at a minimum, two 4" Roundwood Products.
   - In harvest unit 3, reserve and leave undamaged all green marked stems; all jack pine stems; and all advanced submerchantable aspen regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for harvest unit 3.
   - In all harvest units, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   - In harvest unit 3, operations shall minimize to the greatest extent possible any damage to advanced aspen regeneration.
   - One skid trail crossing shall be constructed to access a portion of harvest unit 2 as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. The sale administrator will locate and flag in this skid trail at the time of the pre-operations meeting.
   - Access road system may be utilized for product decking.
   - Four landing locations are permitted as designated.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 3,680 feet. Approximately 2,130 feet of existing access road and 1,520 feet of new access road.
   - The entire 2,160 feet of existing access road will require "Class 3" reconstruction.
   - Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   - The entire 1,520 feet of new access road will require "Class 3" new construction.
   - Two "Earth Berms" shall be installed at locations designated by the Sale Administrator; 1 for harvest unit 2 and 1 for harvest unit 3.

G. OTHER -
   - The Red Pine cord volume contains a large percentage of sawlog material.
   - The County has completed pre-harvest scarification in harvest unit 3. Contact the Sale Administrator for further information.
   - In harvest unit 1, note skidding distances.

The Red Oak volume contains 74% Red Oak, 11% Red Maple, 9% Ash, 3% Aspen, 1% Sugar Maple, 1% Balsam Fir and 1% Black Spruce. The Red Oak cord volume contains a large percentage of sawlog sized material.
TRACT 34-17 (HOLY OAK) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a overstory removal harvest prescription with an estimated average residual basal area of 4ft².
   ➢ Harvest unit 2 has a overstory removal harvest prescription with an estimated average residual basal area of 14ft².
   ➢ Harvest unit 3 has a overstory removal harvest prescription with an estimated average residual basal area of 7ft².
   ➢ Harvest unit 4 has a clear-cut harvest prescription with an estimated average residual basal area of 2ft².

B. SEASONAL RESTRICTIONS -
   ➢ In all harvest units, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all non-marked red oak, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all non-marked red oak, red maple, ash, black spruce, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell, skid, and haul all non-marked red oak, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 4, fell all red maple, ash, aspen, balsam fir, sugar maple, and miscellaneous species stems; and all black spruce and balsam fir stems that contain at a minimum, two 4” Roundwood Products. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all green marked stems; all red pine stems; and all advanced sub-merchantable regeneration.
   ➢ In harvest unit 2, reserve and leave undamaged all green marked stems; all yellow birch and white pine stems; and all advanced sub-merchantable regeneration.
   ➢ In harvest unit 3, reserve and leave undamaged all green marked stems; all white pine stems; and all advanced sub-merchantable regeneration.
   ➢ In harvest unit 4, reserve and leave undamaged all red oak and white pine stems; and all black spruce and balsam fir stems that do not contain at a minimum, two 4” Roundwood Products.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for harvest unit 4.
   ➢ In all harvest units, sheared stems shall be limbed and topped at the stump prior to product skidding or forwarding.
   ➢ In harvest units 1, 2, and 3, the sale administrator will describe a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas. Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ One skid trail crossing shall be constructed to access harvest unit 4 as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. The sale administrator will locate and flag in this skid trail at the time of the pre-operations meeting.
   ➢ Three landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ All access roads are gated.
   ➢ The total length of the existing access road system is approximately 3,800 feet.
   ➢ Portions will require minimal "Class 3" reconstruction before use.
   ➢ Portions of the access road to harvest units 3 and 4 will require freeze down before use.

G. OTHER -
   ➢ Access across land under other ownership to access harvest units 3 and 4 has been secured by the County.

--- Map of the timber sale area with marked harvest units. ---
TRACT 36-17 (HORSESHOE) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a overstory removal harvest prescription with an estimated average residual basal area of 12ft².
   - Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 18ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell all sugar maple, ash, red maple, aspen, black spruce, balsam fir, and miscellaneous species stems; and all less than 14-inch DBH red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell all red maple, aspen, balsam fir, white birch, black spruce, sugar maple, and miscellaneous species stems; and all less than 14-inch DBH red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all red oak, white birch, and yellow birch stems; all 14-inch DBH and greater red pine stems; and all advanced sub-merchantable regeneration.
   - In harvest unit 2, reserve and leave undamaged all red oak and white pine stems; and all 14-inch and greater red pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for harvest unit 2.
   - In both harvest units, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   - In harvest unit 1, the sale administrator will describe a "Fish Bone" skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas. Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   - One skid trail "Freeze Down Crossing" shall be constructed as designated. This crossing will require installing temporary timber mats. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. Contact the Sale Administrator for further information.
   - Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   - The access road is gated.
   - The total length of the access road system is approximately 17,525 feet. Approximately 14,195 feet of existing access road and 3,330 feet of new access road.
   - Portions of the existing access road may require minimal "Class 3" and "Class 4" reconstruction before use.
   - The entire 3,330 feet of new access road will require "Class 3" new construction.
   - Significant portions of the existing access road will require freeze down before use.
   - Five "Freeze Down Crossings" shall be constructed as designated.

G. OTHER -
   - Steep terrain exists in portions of harvest unit 2.
   - The access road for this sale is currently under contract as access for Douglas County Forestry Department timber sales #4362 and #4363. Contractors are encouraged to plan operations accordingly and take the necessary steps to maintain communications and minimize conflict throughout all operations. Contact the Sale Administrator for further information.
