The Douglas County Forest, Parks and Recreation Committee will receive sealed bids for the purchase of the designated stumpage on the enclosed tracts until 5:30 p.m. Tuesday, October 23, 2018 at the Douglas County Forestry Department, 9182 East Hughes Avenue, P.O. Box 211, Solon Springs, WI 54873. Bids will be opened and read at 6:00 p.m. Tuesday, October 23, 2018 at the Forestry Department Headquarters, 9182 East Hughes Avenue, Solon Springs, WI 54873.

Douglas County will award Contracts to the acceptable highest bidder pending verification and approval of each winning bid. In the event of tie bids, the successful bidder will be determined by the toss of a coin by the acting Chairperson of the Douglas County Forest, Parks, and Recreation Committee. No late bids will be considered. No bid will be considered from bidders who are in non-compliance with any current timber sale Contract with Douglas County, are delinquent in their financial obligations to Douglas County, are involved with a pending timber theft or trespass with the County, or from a bidder whose bidding privileges have been either temporarily or indefinitely revoked by the County.

Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County. For further information, bid forms, maps, or a sample Contract; please contact the Douglas County Forestry Department at (715) 378-2219.

NOTICES:

Daily Telegram – October 9, 12, and 16, 2018

I. BIDDING: It is the responsibility of the bidder to inspect; evaluate the stumpage, examine the locations, investigate field conditions, and check Contract requirements for each tract prior to bidding. Bidders are encouraged to contact the “Prepared By” individual on the enclosed tracts for detailed information regarding each tract (see Section XX for contact information). Submission of bid reflects that the bidder has inspected the tract and clearly understands and agrees to all Contract conditions and requirements herein.

Bids for individual tracts must each be submitted on a standard “Douglas County Forestry Department Bid for Advertised Timber” form, indicating correct tract number, and be presented in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)”. An online version of the bid form reducing the chances for errors is also available at www.douglasscountywi.org/forestry. Forms must be completed legibly and correctly in their entirety with all requested information required for bid consideration.

Bids must be submitted separately for each tract by indicating the advertised species, the advertised species product volume, a per product bid price for each species advertised, a total bid value for each species and product advertised, and a total tract bid value for all species and products advertised using the corresponding locations on the bid form.

Considered bids must meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed.

Bids below the minimum advertised total tract value for each species and product listed, the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

The use of an off-highway-vehicle (ATV or snowmobile) on routes or areas closed to motorized use must be approved by the Douglas County Forestry Department prior to occurrence or the operator is subject to penalty as provided by County Ordinance. If granted, permission will be authorized for pre-bidding inspection purposes only and operators shall operate in a safe, responsible, and environmentally friendly fashion. Contact the Department at (715) 378-2219 for further information.

II. BID GUARANTEE BOND: A bid guarantee for a minimum of 10-percent of the total tract bid value must accompany each bid for an individual tract as a bid guarantee bond, payable to Douglas County Forestry Department.

The bid guarantee bond must be in the form of cash, cashier's check, certified check, money order, bank draft, personal check, or business check unless otherwise specified by the County; must be covered by sufficient funds in the account on which it is drawn once submitted to the County, and remain in effect until the Contract is executed by all parties. The County reserves the
right to investigate sufficient funds coverage on any bid guarantee bond provided. In the event that the bid guarantee bond is not covered by sufficient funds, the bidder will be forbid from being awarded the Contract.

The bid guarantee bond will be held by the County until replaced by the successful bidder’s performance bond. Bid guarantee bonds will be returned to unsuccessful bidders.

Failure by the successful bidder to provide the County with the mandatory executed Contract of sale, performance bond, current certificates of insurance, and current SFI training certificate equivalent to those conditions provided below within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**III. PERFORMANCE BOND:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a performance bond in the amount of 20-percent of the total purchased tract value. Such a performance bond shall be submitted to the County for approval in the form of cash bond, written performance bond (surety bonds will not be accepted), or irrevocable letter of credit. The County reserves the right to limit the form of acceptable performance bond. The Purchaser must indicate on the bid form what form of performance bond will be provided to the County.

In the event that a cash performance bond is indicated on the bid form, the bid guarantee bond will be deposited immediately and applied towards the performance bond. The balance of the cash performance bond is to be provided by the successful bidder pursuant to those conditions provided above.

In the event that a written performance bond or irrevocable letter of credit is indicated on the bid form, the successful bidder will provide the County a written performance bond (surety bonds will not be accepted) or irrevocable letter of credit issued by a bank or insurance company which is a member of the Federal Reserve System or insured by the Federal Deposit Insurance Corporation pursuant to those conditions provided above. The written performance bond or irrevocable letter of credit shall have an expiration date of no less than 30 calendar days past the sale expiration date.

Failure by the successful bidder to provide the County with the mandatory amount and form of performance bond equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**IV. LIABILITY INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of comprehensive general liability insurance from the insurer(s) of the successful bidder or their agents certifying coverage to the limit of $1,000,000 per occurrence and $1,000,000.00 per aggregate for property damage and bodily injury, including death. Such certificate shall name the County as an additional insured and shall be submitted to the County for approval of the insurer(s), the amount, and the form. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**V. WORKERS’ COMPENSATION INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance verifying workers’ compensation coverage or proof of exemption from such coverage as provided by law. Such written certificate or verification shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or written verification or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance for workers’ compensation coverage or exemption from such coverage as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**VI. SFI TRAINING STANDARD:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall
receive a valid certificate of completion for the current Wisconsin Sustainable Forestry Initiative (SFI) training standards or comparable certification training standards of different States (depending on the successful bidder’s address of its principle place of business) as approved by the Forest Industry Safety & Training Alliance (FISTA) which can be contacted at 1-800-551-2656. Such certificate shall be in the name of the individual responsible for signing the Contract on behalf of the successful bidder, or the president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder; and shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine training records itself.

Failure by the successful bidder to provide the County with the mandatory certificate of completion for the current SFI training standards as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**VII. CONTRACT EXECUTION:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive the original Contract with all required information completed with the original signature of a president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder.

Failure by the successful bidder to provide the County with the Contract as indicated above or with an incomplete, illegible, or incorrect Contract within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**VIII. PAYMENT SCHEDULE:** Payment of the initial advance stumpage payment or lump sum payment, is required prior to the commencement of any Contract operations other than road and landing construction activities. Removal of any products prior to receipt of the initial advance stumpage payment or lump sum payment by the County will be treated as harvested without the County’s consent or permission and subjects the Purchaser to civil and/or criminal penalties provided under Douglas County Ordinance #7.6.

The second and subsequent increment installment payments will be due to the County at the point the value of all products removed from the sale reaches 75-percent of the credit on deposit. In no event will payments due be made by the Purchaser to the County more than 15 calendar days from the date of invoice. The County reserves the right to place additional payment requirements on the Purchaser to protect its best interests or those best interests of the public.

The following plan is used by the County to determine the increment schedule required on the enclosed tracts, unless otherwise specified by the County:

<table>
<thead>
<tr>
<th>Total Contract Purchase Value</th>
<th>Increment Schedule</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lump Sum</td>
<td>100% Payment or Per Harvest Unit (See Tract Specs)</td>
</tr>
<tr>
<td>UP to $5,000.00</td>
<td>100% Payment</td>
</tr>
<tr>
<td>$5,000.01 to $10,000.00</td>
<td>50% Payment</td>
</tr>
<tr>
<td>$10,000.01 to $150,000.00</td>
<td>10% Payment</td>
</tr>
<tr>
<td>$150,000.01 and OVER</td>
<td>5%(2), 10%(9) Payment</td>
</tr>
</tbody>
</table>

**IX. PRODUCT STANDARDS:** Standard advertised products are as follows:

- 4” Roundwood Product - A tree, log or stick with a minimum of one 100-inch stick to a 4-inch top diameter.
- Whole-tree Product - All or any woody material from the sheared butt stump of all 2-inch and greater DBH trees to the tip of the tree, including all logs, sticks and branches originating from any stem associated with the tree.
- Softwood Sawlog Product - A tree, log or stick 9-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.
- Hardwood Sawlog Product - A tree, log or stick 10-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.

**X. VOLUME AND WEIGHT STANDARDS:** The enclosed volumes/weights of products by tract are estimates. The County provides no warranty or guarantee as to the species, product type, quality, quantity, or condition. The bidder is responsible for making these determinations and bidders should inspect and evaluate the timber contained in the enclosed tracts prior to bidding. Standard advertised volume/weight measures are as follows:

- A standard cord is a volume of stacked or piled wood products, including bark and air space, occupying 128 cubic feet.
A standard MBF is a volume of wood products totaling 1,000 board feet. MBF volume shall be determined using the Scribner Decimal "C" log rule.

A standard ton is a unit of weight measure equal to 2,000 pounds (907.18 kilograms).

XI. ACCESS: The Purchaser is required to complete all road construction requirements for the enclosed tracts. Location of all road, transportation, and access routes, including associated infrastructure components, for the enclosed tracts are designated by the County and are limited to what is displayed on the maps and in the Contract conditions. The County does not conduct road appraisals. All road and infrastructure construction cost estimates and actual expenses are the responsibility of the Purchaser and bidders should inspect and evaluate these based on Contract requirements and field conditions prior to bidding.

XII. EXTENSIONS: It is expressly understood by the bidder that Contract extensions are not guaranteed and full performance on a Contract is expected prior to the initial expiration date.

XIII. COMMENCEMENT OF OPERATIONS: Operations may not commence on any tract before all Contract execution, insurance, SFI training, financial, and additional required conditions have been successfully met by the Purchaser and approved by the County.

XIV. RECEIPT OF REQUIREMENTS: The bidder and/or successful bidder bears all responsibility for postal or delivery delays outside of the County’s control for all requirements to be received by the County prior to bid consideration and/or Contract execution, including but not limited to: the bid, the bid guarantee bond, the performance bond, liability insurance, workers’ compensation insurance, SFI training standard, the Contract, payments, and all other correspondence, documents, and requirements.

XV. DIRECT SALES: Periodically Douglas County will offer direct stumpage sales. Direct sales are available on a first come, first served basis with the sale offered at or above the total appraised value with no percentage reductions, according to the WDNR Timber Sale Handbook. Please contact the Douglas County Forestry Department at (715) 378-2219 for direct sale availability and/or additional information.

XVI. IRRESPONSIBLE BIDDER: A bidder deemed by the County to be an irresponsible bidder may be refused the opportunity to bid upon or obtain Douglas County timber sales for a pre-determined set time period as determined by the County or indefinitely as deemed in the best interest of the County.

XVII. FOREST CERTIFICATION: The Douglas County Forest, including the areas encompassed by the enclosed tracts, is certified to the standards of the Forest Stewardship Council ® (FSC ® C006090) FSC 100% and the Sustainable Forestry Initiative ® SFI-01617 SFI 100%. Forest products harvested from the Douglas County Forest may be delivered to the destination facility as certified as long as the Contractor hauling the forest products is chain-of-custody (COC) certified or covered under a COC certificate from the destination facility. The Purchaser assumes all responsibility for maintaining COC after leaving the area encompassed by any individual tract.

XVIII. EAB QUARANTINE: As of August 2013, all of Douglas County has been placed under a Wisconsin Department of Agriculture, Trade, and Consumer Protection (DATCP) and United States Department of Agriculture (USDA) quarantine for Emerald Ash Borer (EAB). Quarantine compliance, including rules and regulations regarding the transport and utilization of ash products, is the full responsibility of the Purchaser. For additional information on the quarantine, including compliance agreements, please contact DATCP at 608-224-4573 and/or the USDA-APHIS at 608-231-9553.

XIX. TRUCK HAULING INFORMATION: The number of Douglas County townships that have developed or are in the process of developing additional policies in the form of regulations to protect their investments in and limit damage caused by heavy equipment to their local township roads continues to increase. The Douglas County Forestry Department has taken an active role in working with these townships in an attempt to alleviate concerns. The Department believes that their intent is not to restrict harvesting and subsequent hauling of timber, but a response to repetitive and inappropriate use by heavy trucks and equipment. Hauling Contractors need to be aware that public relations are vital to their business and inconsiderate and inappropriate actions reflect poorly on all of us in the forest industry.

All required permits and conditions for use of any public roadways other than those managed by the Douglas County Forestry Department are the responsibility of the Purchaser to obtain, keep current, and comply with. The County bears no responsibility or assures guaranteed use of any public roadway outside of its scope of authority used for the purpose of accessing any of the enclosed tracts and any additional requirements, restrictions, conditions, or terms enacted by any roadway authority are the
responsibility of the Purchaser. The County recommends contacting the appropriate roadway authority prior to bidding on any of the enclosed tracts.

Below are the town chair contact information for each township and one village that contain Douglas County forest and special use land within their boundaries. Contacts for the Douglas County Highway Department and the Forestry Department are also included. Bidders should refer to this information as they prepare bids for the enclosed tracts. This information is up-to-date and current at the time of printing only, please contact the town/village, Sale Administrator, or see the “Official E-Directory” link on the Douglas County website www.douglascountywi.org for updates and/or additional information.

Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract's advertised species, product volumes, and bid amounts in the table as follows:

(a) For Ticket Scale Tracts:
   - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
   - Column B - If bidding on advertised 4" Roundwood Cords, list Estimated Volume in 4" Roundwood Cords from the Timber Sale Map per Species.
   - Column C - If bidding on advertised 4" Roundwood Cords, enter your Bid Price Per 4" Roundwood Cord per Species.
   - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
   - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
   - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
   - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
   - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
   - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

(b) For Lump Sum Scale Tracts:
   - Write the words “LUMP SUM” once in column A (under Species).
   - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization's name you are bidding on behalf of, your affiliated organization's or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (Include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

— The Bid Form MUST BE completed in its entirety —

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

   (a) For Ticket Scale Tracts:

   ➢ Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
   ➢ Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
   ➢ Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
   ➢ Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
   ➢ Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
   ➢ Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
   ➢ Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
   ➢ Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
   ➢ Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

   (b) For Lump Sum Scale Tracts:

   ➢ Write the words “LUMP SUM” once in column A (under Species).
   ➢ Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

   * For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

The Bid Form MUST BE completed in its entirety---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
**DOUGLAS COUNTY FORESTRY DEPARTMENT**

**BID FOR ADVERTISED TIMBER**

**TO DOUGLAS COUNTY FOREST, PARKS, AND RECREATION COMMITTEE:**

Submitted in response to the notice of Timber Stumpage for Sale published in the Daily Telegram on October 9, 12, and 16, 2018, I hereby submit the following bid for the advertised timber stumpage to be cut and sold from Douglas County lands described as follows:

— See reverse side of form for instructions on how to complete —

**Total Tract Bid Value**

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

**Bid Guarantee Bond Amount**

10% of the Total Tract Bid Value

In the form of:  
☐ Cash  ☐ Business/Personal Check  ☐ Cashier's/Certified Check  ☐ Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

☐ Cash Performance Bond  ☐ Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a:  
☐ Corporation  ☐ Partnership  ☐ Sole Proprietorship  (individual)

Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

(a) For Ticket Scale Tracts:

- Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
- Column B - If bidding on advertised 4" Roundwood Cords, list Estimated Volume in 4" Roundwood Cords from the Timber Sale Map per Species.
- Column C - If bidding on advertised 4" Roundwood Cords, enter your Bid Price Per 4" Roundwood Cord per Species.
- Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
- Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
- Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
- Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
- Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
- Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

(b) For Lump Sum Scale Tracts:

- Write the words “LUMP SUM” once in column A (under Species).
- Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Scaled Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

--- The Bid Form MUST BE completed in its entirety ---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

   (a) For Ticket Scale Tracts:

       ➢ Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
       ➢ Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
       ➢ Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
       ➢ Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
       ➢ Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
       ➢ Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
       ➢ Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
       ➢ Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
       ➢ Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

   (b) For Lump Sum Scale Tracts:

       ➢ Write the words “LUMP SUM” once in column A (under Species).
       ➢ Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

       * For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

The Bid Form MUST BE completed in its entirety---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
The Red Oak volume contains a high percent of sawlog size/quality material.
TRACT 24-18 (SOLID REMOVAL) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Overstory removal harvest prescription with an estimated average residual basal area of 9ft².

B. SEASONAL RESTRICTIONS -
   ➢ No harvesting operations shall be permitted in either harvest unit from March 15th to July 15th.
   ➢ Please note that lowland portions on an estimated 20% of the harvest area may not be operable during non-frozen ground conditions.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all red oak stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine, red pine, sugar maple, and red maple stems.
   ➢ Reserve and leave undamaged advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is allowed.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Landing locations will be restricted to the existing road system.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing access road system is approximately 2,500 feet.
   ➢ Portions of the existing access road may require minimal “Class 3” reconstruction before use.

The Red Oak volume contains approximately, 50% Red Oak, 22% Red Maple, 13% Basswood, 8% White Birch, 4% Sugar Maple, 2% Ash and 1% Misc.
TRACT 33-18 (NO FORESTRY RD) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a seed tree harvest prescription with an estimated average residual basal area of 27'2.
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 5'2.

B. SEASONAL RESTRICTIONS -
   ➢ No harvesting operations shall be permitted in either harvest unit from March 15th to July 15th.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all non-marked red maple, red oak, sugar maple, aspen, white birch, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all red maple, red oak, sugar maple, aspen, white birch, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all green marked stems; all white pine, red pine, spruce, and cedar stems.
   ➢ In harvest unit 2, reserve and leave undamaged all white pine, red pine, spruce and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for all harvest units.
   ➢ Three landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ The entire 4,050 feet of existing access road will require "Class 3" reconstruction.
   ➢ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

TOTALS 3,035 4,100 XXX $41,820.00

The Mixed HW volume contains approximately 33% Red Oak, 23% Red Maple, 15% Sugar Maple, 12% Black Ash, 9% Basswood, 4% White Birch, 2% Aspen, and 2% misc.
TRACT 02-18 (EUREKA) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Seed tree harvest prescription with an estimated average residual basal area of 15 ft2.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 80% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 20% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all non-marked red oak, sugar maple, red maple, aspen, black ash, white ash, white birch, basswood, ironwood, and miscellaneous species stems; and all tamarack and black spruce stems that contain at a minimum, three 4" Roundwood Product sticks. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all green marked stems; all white pine, yellow birch, white spruce and elm stems; all tamarack and black spruce stems that do not contain at a minimum, three 4" Roundwood Product sticks; and all advanced sub-merchantable red oak and aspen regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Complete Vegetation Maintenance" is required.
   ➢ One landing location is permitted as designated.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 8,100 feet. Approximately 6,900 feet of existing "Class 2" access road and 1,200 feet of new access road.
   ➢ Portions of the existing access road may require minimal "Class 2" reconstruction before use.
   ➢ The entire 1,200 feet of new access road will require "Class 3" new construction.
   ➢ One temporary "Timber Bridge Crossing" shall be constructed. Please see contract attachment.
   ➢ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➢ Steep terrain exists in the northeastern harvest unit.

TRACT 03-18 (SVEEPER) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Seed tree harvest prescription with an estimated average residual basal area of 18 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 70% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 30% of the harvest area (lowlands). Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all non-marked sugar maple, red maple, aspen, black ash, white ash, white birch, basswood, balsam fir, white spruce, ironwood, cherry and miscellaneous species stems; and all black spruce and tamarack stems that contain at a minimum, one 4” Roundwood Product stick. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all green marked stems; all white pine, red oak, yellow birch, and elm stems; and all tamarack and black spruce stems that do not contain at a minimum, one 4” Roundwood Product stick.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Complete Vegetation Maintenance” is required.
   ➢ Access road system shall be utilized for product decking.
   ➢ Four landing locations are permitted as designated.
   ➢ No “Whole-tree Product” utilization allowed in black spruce-tamarack lowland areas, totaling 17 acres. Contact the Sale Administrator for further information.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 7,600 feet, approximately 7,100 feet of new “Class 2” construction and 500 feet of new “Class 3” construction.
   ➢ The “Class 3” construction will begin where the berm installation is indicated on the map and continue north to the landing.
   ➢ The southern access road is blocked with an “Earth Berm”. Berm removal is recommended during non-frozen ground conditions.
   ➢ Four permanent “Culvert Crossings” shall be constructed as designated. Please see contract attachment.
   ➢ One “Freeze Down Crossing” shall be constructed as designated.
   ➢ An “Earth Berm” shall be installed as designated.
   ➢ West Crotte Brook is a County Forest Road.

G. OTHER -
   ➢ Protect designated survey monument.
   ➢ Note substantial road building requirements requiring adequate road building equipment and capability.

$7,215.00

The Red Oak volume contains approximately 73% Red Oak, 12% White Ash, 7% White Birch, 3% Sugar Maple, 3% Black Ash, 1% Basswood & 1% Red Maple.
TRACT 23-18 (KINGSDALE(OSR)) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION:
   ➢ Oversstory removal harvest prescription with an estimated average residual basal area of 1ft².

B. SEASONAL RESTRICTIONS -
   ➢ No harvesting operations shall be permitted in either harvest unit from March 15th to July 15th.
   ➢ Please note that lowland portions on an estimated 10% of the harvest area may not be operable during non-frozen ground conditions.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all red oak, white ash, white birch, sugar maple, black ash, basswood, and red maple stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine, white spruce, and miscellaneous species stems.
   ➢ Reserve and leave undamaged advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is allowed.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Lading will be restricted to small back-in turn-around.
   ➢ Access road system shall be utilized for product deck.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing access road system is approximately 3,800 feet.
   ➢ Portions of the existing access road may require minimal ‘Class 2’ reconstruction before use.

The Mixed HW volume contains approximately 48% Red Maple, 14% Sugar Maple, 12% White Birch, 12% Ash, 6% Aspen and 8% Misc.
TRACT 29-18 (SCRAPS) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has an overstory removal harvest prescription with an estimated average residual basal area of 0ft².
   - Harvest unit 2 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 3ft².
   - Harvest unit 3 has a clear-cut harvest prescription with an estimated average residual basal area of 10ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations in harvest units 1 and 2 are not restricted by season or time of the year on an estimated 60% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 40% of the harvest area (lowlands). Contact the Sale Administrator for further information.
   - All harvesting operations in harvest unit 3 shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all red maple, white birch, sugar maple, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell, skid, and haul all red maple, sugar maple, white birch, ash, aspen, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 3, fell, skid, and haul all black spruce stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all white pine stems and all advanced sub-merchantable regeneration.
   - In harvest unit 2, reserve and leave undamaged all red oak, yellow birch, white spruce, and cedar stems.
   - In harvest unit 3, reserve and leave undamaged all advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   - In harvest unit 1, the sale administrator will discuss a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to identified trails and minimized on all other areas.
   - “Slashing Maintenance” is required for harvest unit 2.
   - Three landing locations are permitted as designated.
   - Bounty Road and access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 2,000 feet. Approximately 200 feet of existing access road and 1,800 feet of new access road.
   - Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   - The entire 1,800 feet of new access road will require “Class 3” new construction.
   - An “Earth Berm” shall be installed as designated.
   - Bounty Road is a County Forest Road, winter snowmobile trail, and summer ATV route.

G. OTHER -
   - The access road requiring new construction is not marked in the field. The Sale Administrator will locate, identify, and flag this in during the pre-operations meeting.
The Aspen volume contains approximately 92% Aspen, 6% Scrub Oak, 1% Red Maple, and 1% Misc.
TRACT 19-18 (OX CREEK ASPEN) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Clear-cut harvest prescription with an estimated average residual basal area of 213.

B. SEASONAL RESTRICTIONS -
   - All harvesting operations are not restricted by season or time of the year on an estimated 80% of the harvest area (uplands) and shall/may be limited to frozen ground conditions or unusually dry conditions only on an estimated 20% of the harvest area (lowlands). Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   - Fell, skid, and haul all aspen, scrub oak, red maple, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - Reserve and leave undamaged all white birch stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for the harvest unit.
   - Two landing locations are permitted as designated.
   - Access road system can be utilized for product decking.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 5,700 feet. Approximately 5,200 feet of existing access road and 500 feet of new access road.
   - Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   - The entire 500 feet of new access road will require "Class 3" new construction.
   - An "Earth Berm" shall be installed at a location designated by the Sale Administrator.
   - The access road utilizes a significant portion of a winter snowmobile and summer ATV trail.

G. OTHER -
   - Internal reserve/exclusion areas that are marked with purple paint at or near Diameter at Breast Height (DBH) are designated as equipment restriction zones.

TRACT 26-18 (ROCKET MAN) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 6ft².
   ➢ Harvest unit 2 has an overstory removal harvest prescription with an estimated average residual basal area of 0ft².
   ➢ Harvest unit 3 has a clear-cut harvest prescription with an estimated average residual basal area of 1ft².

B. SEASONAL RESTRICTIONS -
   ➢ Harvest unit 1, all harvesting operations are not restricted by season or time of the year on an estimated 40% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 60% of the harvest area (lowlands). Contact the Sale Administrator for further information.
   ➢ Harvest unit 2, all harvesting operations are not restricted by season or time of the year.
   ➢ Harvest unit 3, all harvesting operations shall be limited to frozen ground conditions only, with no operations including road work and hauling being permitted between between March 1st to July 31st.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all aspen, white birch, red maple, sugar maple, ash, basswood, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all red oak, white birch, red maple, sugar maple, ash, basswood, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell, skid, and haul all black spruce and tamarack stems that contain at a minimum, one 4" Roundwood Product.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, elm, white spruce, and cedar stems.
   ➢ In harvest unit 2, reserve and leave undamaged advanced sub-merchantable regeneration.
   ➢ In harvest unit 3, reserve and leave undamaged all white pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for harvest unit 1.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ Use of any feller-buncher felling equipment (hot saw type or similar) is allowed prior to processing.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Five landing locations shall be identified during the pre-operations meeting.
   ➢ One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ Harvest unit 2, the access road is gated.
   ➢ Portions of the access road is a winter snowmobile and summer ATV trail.
   ➢ The total length of the access road is approximately 12,800 feet.
   ➢ Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   ➢ Portions may require freeze down before use.
   ➢ An "Earth Berm" is located on the access road and shall be reinstalled at the same designated location.

The Mixed HW volume contains approximately 30% Aspen, 23% Red Maple, 20% Red Oak, 12% Sugar Maple, 12% White Birch, and 3% Misc. The Red Oak volume contains a large percentage of sawlog size/quality material.
TRACT 27-18 (MASHED POTATOES) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a seed tree harvest prescription with an estimated average residual basal area of 20 ft².
   ➢ Harvest unit 2 has a seed tree harvest prescription with an estimated average residual basal area of 23 ft².
   ➢ Harvest unit 3 has a clear-cut harvest prescription with an estimated average residual basal area of 0 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 70% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 30% of the harvest area (lowlands). Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all non-marked, aspen, red maple, red oak, sugar maple, white birch, ironwood, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, red maple, sugar maple, white birch, ironwood, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell, skid, and haul all aspen, red maple, red oak, sugar maple, white birch, ironwood, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all green marked stems.
   ➢ In harvest unit 2, reserve and leave undamaged all red oak stems.
   ➢ In harvest unit 3, reserve and leave undamaged advanced sub-merchantable red oak regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced red oak regeneration.
   ➢ "Complete Vegetation Maintenance" is required for all harvest units excluding advanced sub-merchantable red oak regeneration.
   ➢ Three landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The access road is gated.
   ➢ The total length of the existing access road system is approximately 7,800 feet.
   ➢ Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   ➢ 4,200 feet of the access road is a winter snowmobile trail.
   ➢ Three permanent "Culvert Crossing" shall be constructed as designated. Please see contract attachment.

G. OTHER -
   ➢ Protect designated survey monument.
   ➢ Internal reserve/exclusion areas that are marked with red paint at or near Diameter at Breast Height (DBH) are designated as equipment restriction zones.

The Mixed HW volume contains approx. 29% Black Ash, 21% Red Maple, 21% Sugar Maple, 19% Basswood, 5% White Birch, 2% White Ash, 2% Yellow Birch & 1% Red Oak. The Balsam Fir volume contains approx. 86% Balsam Fir, 13% White Spruce, & 1% Black Spruce.
TRACT 15-18 (HEADWATERS HARDWOOD) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a seed tree harvest prescription with an estimated average residual basal area of 20ft².
   - Harvest unit 2 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 10ft².
   - Harvest unit 3 has a 3rd entry improvement thinning harvest prescription with an estimated average residual basal area of 120ft².

B. SEASONAL RESTRICTIONS -
   - No harvesting operations in any harvest units shall be permitted from March 15th to June 30th.
   - Please note that lowland portions on an estimated 30% of the harvest area may not be operable during non-frozen ground conditions or unusually dry conditions.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all non-marked white ash, balsam fir, white spruce, black spruce, sugar maple, red maple, aspen, black ash, basswood, red oak, yellow birch, and white birch stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell, skid, and haul all sugar maple, red maple, aspen, black ash, basswood, balsam fir, white ash, black spruce, white spruce, white birch, and marked species stems that meet the product and utilization standards as per product bid.
   - In harvest unit 3, fell, skid, and haul all sugar maple, red maple, aspen, black ash, basswood, balsam fir, white ash, black spruce, white spruce, white birch, and marked species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all green marked stems; all cedar, white pine, and red pine stems; and all sub-merchantable regeneration.
   - In harvest unit 2, reserve and leave undamaged all red oak, yellow birch, elm, cedar, white pine, and red pine stems; and all sub-merchantable regeneration.
   - In harvest unit 3, reserve and leave undamaged all non-marked red pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - “Slashing Maintenance” of ironwood stems is required for all harvest units. Pulling stems with root masses out of the ground is the preferred method.
   - All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is allowed.
   - Six landing locations are permitted as designated. Alternative landing locations can be discussed during the pre-operations meeting.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 5,700 feet. Approximately 5,200 feet of existing access road and 500 feet of new access road.
   - Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   - The entire 500 feet of new access road will require “Class 3” new construction.
   - Removal and reinstalation of motorized access road signs will be discussed during the pre-operations meeting.

G. OTHER -
   - A large industrial transmission line and pipeline and associated rights-of-way are located directly adjacent to a portion of the harvest area. Use extra care and caution when working in this area.
   - The eastern access road is gated and is a shared access road with Enbridge, no equipment or hauling operations shall be allowed beyond the new access road as designated. Contact the Sale administrator for further information.

The Mixed HW volume contains approximately 45% Red Maple, 21% Sugar Maple, 18% Black Ash, 7% Basswood, 5% Yellow Birch & 4% White Birch. The Balsam Fir volume contains approximately 70% Balsam Fir, 20% Black Spruce & 10% Tamarack.
TRACT 16-18 (PASKE BRIDGE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 1ft².
   ➢ Harvest unit 2 has a seed tree harvest prescription with an estimated average residual basal area of 40ft².
   ➢ Harvest unit 3 has a seed tree harvest prescription with an estimated average residual basal area of 40ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all aspen, white birch, red maple, sugar maple, black ash, and balsam fir stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, white birch, red maple, yellow birch, black ash, balsam fir, black spruce, and tamarack stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell, skid, and haul all non-marked aspen, white birch, red maple, sugar maple, yellow birch, basswood, black ash, and balsam fir stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, white spruce, and white pine stems.
   ➢ In harvest unit 2, reserve and leave undamaged all yellow birch, cedar, elm, and white spruce stems; and all advanced sub-merchantable regeneration.
   ➢ In harvest unit 3, reserve and leave undamaged all green marked stems; and all red oak, elm, white spruce, and white pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required in harvest unit 1.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ Slash and tops should be spread evenly across the harvest units and efficiently utilized to maximize equipment floatation and minimize soil displacement and compaction.
   ➢ The use of corduroy on mainline skid trails may be necessary to minimize soil disturbance and negative impacts to water quality.
   ➢ Two landing locations are permitted as designated.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 5,800 feet. Approximately 4,600 feet of existing access road and 1,200 feet of new access road.
   ➢ The entire 4,600 feet of existing access will require 3,800 feet of "Class 3" reconstruction and 800 feet of freezedown before use.
   ➢ The entire 1,200 feet of new access road with require "Class 3" new construction.
   ➢ Two "Freeze Down Crossings" shall be constructed as designated.
   ➢ An "Earth Berm" is located on the access road and shall be reinstalled at the same designated location.
   ➢ Removal and reinstallation of motorized access road sign will be discussed during the pre-operations meeting.

G. OTHER -
   ➢
The Red Pine volume contains a large percentage of sawlog material, with an average stand diameter of 14 inches.
TRACT 20-18 (COUNTY SCHOOL) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut (plantation final rotation) harvest prescription with no residual basal area.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all red pine and miscellaneous species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine and all advanced sub-merchantable red pine and white pine regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ Access road system shall be utilized for product decking.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Two landing locations are permitted as designated and will be restricted to small back in turn-arounds.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ Portions may require minimal reconstruction before use.
   ➢ The total length of the existing access road system is approximately 300 feet.
   ➢ Portions of the access road system utilize winter ski trails.

G. OTHER -
   ➢ A transmission line and associated right-of-way is located directly adjacent to the harvest unit alongside State Highway 53.
   ➢ Opportunity for harvesting and hauling during the spring road weight restriction period may exist but is not guaranteed. Utilizing Hungry Bear County Forest Road to directly connect with State Highway 53 may be an available option. Contact the Sale Administrator for further information.

The Mixed HW volume contains approximately 43% Red Maple, 23% Black Ash, 16% Sugar Maple, 16% White Birch, and 2% Misc. The Black Spruce volume contains approximately 46% Black Spruce, 28% Balsam Fir, 18% Tamarack, and 8% White Spruce.
TRACT 21-18 (EMPIRE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 17 ft².
   ➢ Harvest unit 2 has a shelterwood harvest prescription with an estimated average residual basal area of 41 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all aspen, white birch, red maple, sugar maple, black ash, and miscellaneous species stems; and all black spruce, tamarack, white spruce, and balsam fir stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell all non-marked aspen, white birch, red maple, yellow birch, sugar maple, black ash, balsam fir, black spruce and tamarack stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, white pine, white cedar, and yellow birch stems; and all sub-merchantable black spruce, tamarack, white spruce, and balsam fir stems.
   ➢ In harvest unit 2, reserve and leave undamaged all green marked stems, cedar, white spruce, white pine, and all advanced sub-merchantable red oak regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ In harvest unit 1, "Slashing Maintenance" is required for all hardwood stems.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is allowed.
   ➢ Four skid trail "Freeze Down Crossings" shall be constructed as designated. All equipment operation and skidding in these portions of the sale areas shall be limited to these crossings.
   ➢ Some harvest units shall only be accessed by skid trails as designated. The sale administrator will layout a skid trail plan at the time of the pre-operations meeting.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Four landing locations are permitted as designated. Alternative landing locations can be discussed during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 6,450 feet. Approximately 5,100 feet of existing access road and 1,350 feet of new access road.
   ➢ Portions of existing access road will require "Class 3" reconstruction.
   ➢ The entire 1,350 feet of new access road will require "Class 4" construction.
   ➢ An "Earth Berm" is located on the access road and shall be reinstalled at the same designated location.
   ➢ Removal and reinstallation of the motorized access road sign will be discussed during the pre-operations meeting.

The Mixed HW volume contains approximately 34% Ash, 28% Red Maple, 19% Sugar Maple, 17% White Birch, & 2% Basswood. The Black Spruce volume contains approximately 42% Black Spruce, 40% Balsam Fir, 12% White Spruce, & 6% Tamarack.
TRACT 22-18 (Ericson Creek) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 14ft2.
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 15ft2.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all aspen, white birch, red maple, black ash, black spruce, tamarack, white spruce, and balsam fir stems; and all 10-inch and greater DBH sugar maple stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, white birch, red maple, yellow birch, black ash, sugar maple, balsam fir, black spruce, and tamarack stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, white pine, and white cedar stems; all less than 10-inch DBH sugar maple stems; and all advanced sub-merchantable white spruce regeneration.
   ➢ In harvest unit 2, reserve and leave undamaged all green marked stems; all white cedar stems; and all advanced sub-merchantable black spruce regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required in harvest unit 1 excluding advanced sub-merchantable white spruce regeneration.
   ➢ All harvesting operations shall be limited to short-wood/out-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➢ Slash and tops should be spread evenly across the harvest units and efficiently utilized to maximize equipment floatation and minimize soil displacement and compaction.
   ➢ The use of freeze-down and corduroy on mainline skid trails may be necessary to minimize soil disturbance and negative impacts to water quality.
   ➢ Up to four landing locations shall be identified as designated or during the pre-operations meeting.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ No vehicular access (in or out) to the east of Ericson Creek Road on Hunters Trail or from the designated berm location to the north on Ericson Creek Road shall be permitted.
   ➢ The total length of the access road system is approximately 7,900 feet. Approximately 5,100 feet of existing access road and 2,800 feet of new access road.
   ➢ The entire 5,100 feet of existing access will require "Class 3" reconstruction before use.
   ➢ The entire 2,800 feet of new access road with require "Class 3" new construction.
   ➢ One "Freeze Down Crossing" shall be constructed as designated.
   ➢ An "Earth Berm" is located on one of the access roads as designated and shall be reinstalled at the same designated location.
   ➢ Removal and reinstallation of motorized access road sign will be discussed during the pre-operations meeting.
   ➢ Hunters Trail Road and Ericson Creek Road are County Forest Roads.
   ➢ A portion of Hunters Trail Road is a winter snowmobile trail.

TRACT 28-18 (DECLARATION OF INDEPENDENCE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 15ft².
   - Harvest unit 2 has a shelterwood harvest prescription with an estimated average residual basal area of 40ft².
   - Harvest unit 3 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 16ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations in harvest units 1 and 2 are not restricted by season or time of year on an estimated 60% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 40% of the harvest area (lowlands). Contact the Sale Administrator for further information.
   - All harvesting operations in harvest unit 3 shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell all red maple, sugar maple, white birch, ash, and miscellaneous species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell all non-marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   - In harvest unit 3, fell all ash, red maple, aspen, white birch, and miscellaneous species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest units 1, 2 and 3 reserve and leave undamaged all green marked stems, red oak, black spruce, red pine, yellow birch, white pine, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for all harvest units.
   - Four landing locations are permitted as designated. Alternative landing locations can be discussed during the pre-operations meeting.
   - In harvest unit 3, No "Whole-tree product" utilization will be allowed.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 14,500 feet. Approximately 7,700 feet of existing road and 6,800 feet of new access road.
   - Portions of the existing access road may require minimal "Class 2" reconstruction before use.
   - 6,500 feet of new access road will require "Class 3" new construction before use, and 300 feet of new additional road will require new "Class 2" construction.
   - Significant portions will require freeze down before use.
   - An "Earth Berm" shall be installed as designated.
   - One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   - One permanent "Culvert Crossing" shall be constructed as designated. Please see contract attachment.

G. OTHER -
   - Note substantial road building requirements requiring adequate road building equipment and capability.

     Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, haul all non-marked red maple, red oak, sugar maple, aspen, white birch, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, haul all black spruce, red maple, red oak, sugar maple, aspen, white birch, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all green marked stems; all red pine, white pine, cedar, and white spruce stems.
   ➢ In harvest unit 2, reserve and leave undamaged all tamarack, white pine, red pine, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for all harvest units.
   ➢ Two landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ The access road is blocked with an “Earth Berm”. Berm removal is recommended during non-frozen ground conditions
   ➢ Wanek Road is a County Forest Road.
   ➢ The entire 1,600 feet of existing access road will require “Class 3” reconstruction.
   ➢ An “Earth Berm” shall be installed at a location designated by the Sale Administrator.
   ➢ One permanent “Culvert Crossing” shall be constructed as designated. Please see contract attachment.

G. OTHER -
   ➢ Note skidding distances.

TRACT 35-18 (PIONEER OR FAR) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 482.
   ➢ Harvest unit 2 has a seed tree harvest prescription with an estimated average residual basal area of 2112.

B. SEASONAL RESTRICTIONS -
   ➢ No harvesting operations shall be permitted in either harvest unit from April 1st to July 15th.
   ➢ Harvest unit 2 shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all red maple, sugar maple, aspen, white birch, balsam fir, and miscellaneous species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell all non-marked red maple, red oak, sugar maple, aspen, white birch, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, spruce, white pine, red pine, and cedar stems.
   ➢ In harvest unit 2, reserve and leave undamaged all green marked stems; and all spruce, white pine, red pine, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for all harvest units.
   ➢ Four landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ Portions may require freeze down before use.
   ➢ Harvest unit 2, the access road is blocked with an "Earth Berm". Berm removal is recommended during non-frozen ground conditions.
   ➢ Three “Freeze Down Crossings” shall be constructed as designated.
   ➢ One permanent “Culvert Crossing” shall be constructed as designated. Please see contract attachment.
   ➢ The total length of the access road system is approximately 5,200 feet. Approximately 3,500 feet of existing access road and 1,700 feet of new access road.
   ➢ The entire 5,200 feet of existing access road will require “Class 3” reconstruction.
   ➢ The entire 1,700 feet of new access road will require “Class 3” new construction.
   ➢ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➢
The Mixed HW volume contains approximately 47% Red Oak, 44% White Birch, 5% Red Maple, and 4% Sugar Maple.
TRACT 36-18 (TOWER FIRE LANE (OSR)) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Overstory removal harvest prescription with an estimated average residual basal area of 4ft².

B. SEASONAL RESTRICTIONS -
   ➢ No harvesting operations shall be permitted in either harvest unit from March 15th to July 15th.
   ➢ Please note that lowland portions on an estimated 30% of the harvest area may not be operable during non-frozen ground conditions.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all red oak, white birch, red maple, and sugar maple stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine, red pine, basswood, and yellow birch stems.
   ➢ Reserve and leave undamaged advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is allowed.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Landing locations will be restricted to the existing road system.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing access road system is approximately 3,600 feet.
   ➢ Portions of the existing access road may require minimal “Class 3” reconstruction before use.

TRACT 13-17 (LAST MINUTE) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 4ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all tamarack, red maple, white spruce, black spruce, balsam fir, and miscellaneous species stems; and all less than 14-inch DBH scrub oak and red oak stems stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all red pine, white pine, jack pine, cedar, yellow birch, and white birch stems; all 14-inch and greater DBH scrub oak and red oak stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashings Maintenance" is required.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Access road system may be utilized for product decking.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 2,500 feet.
   ➢ The entire 2,500 feet will require "Class 4" new construction.
   ➢ Significant portions will require freeze down before use.
   ➢ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➢ The access road and landing locations requiring new construction are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

The Black Spruce volume contains 54% Black Spruce and 46% Tamarack. The Mixed HW volume contains 50% Red Maple, 24% Balsam Fir, 19% Ash, and 7% Aspen. The Red Pine volume contains 55% Red Pine, 44% White Pine, and 1% White Spruce.
TRACT 33-17 (SNAKEWOOD) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 10ft².
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 20ft².
   ➢ Harvest unit 3 has a seed tree harvest prescription with an estimated average residual basal area of 23ft².

B. SEASONAL RESTRICTIONS -
   ➢ In harvest units 1 and 2, all harvesting operations shall be limited to frozen ground conditions only.
   ➢ In harvest unit 3, all harvesting operations are limited to non-frozen/non-snow covered ground conditions.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest units 1 and 2, fell all red maple, balsam fir, ash, aspen, and miscellaneous species stems; and all black spruce and tamarack stems that contain at a minimum, two 4" Roundwood Products. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell, skid, and haul all non-marked red pine, white pine, white spruce, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest units 1 and 2, reserve and leave undamaged all red pine, jack pine, white pine, scrub oak, white birch, and yellow birch stems; and all black spruce and tamarack stems that do not contain at a minimum, two 4" Roundwood Products.
   ➢ In harvest unit 3, reserve and leave undamaged all green marked stems; all jack pine stems; and all advanced sub-m merchantable aspen regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for harvest unit 3.
   ➢ In all harvest units, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ In harvest unit 3, operations shall minimize to the greatest extent possible any damage to advanced aspen regeneration.
   ➢ Two skid trail crossings shall be constructed to access portions of harvest units 1 and 2 as designated. All equipment operation and skidding in these portions of the sale area shall be limited to these crossings. The sale administrator will locate and flag in these skid trails at the time of the pre-operations meeting.
   ➢ Access road system may be utilized for product decking.
   ➢ Five landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 3,680 feet. Approximately 2,160 feet of existing access road and 1,520 feet of new access road.
   ➢ The entire 2,160 feet of existing access road will require "Class 3" reconstruction.
   ➢ Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   ➢ The entire 1,520 feet of new access road will require "Class 3" new construction.
   ➢ Four "Earth Berms" shall be installed at locations designated by the Sale Administrator.

G. OTHER -
   ➢ The Red Pine cord volume contains a large percentage of sawlog material.
   ➢ The County has completed pre-harvest scarification in harvest unit 3. Contact the Sale Administrator for further information.
The Mixed HW volume contains approximately 37% Sugar Maple, 18% Ash, 17% Red Maple, 9% Aspen, 7% Basswood, 5% Red Pine, 3% Black Spruce, and 4% Misc.

The Mixed HW cord volume contains a large percentage of sawlog size/quality material in unit 1.
TRACT 36-17 (HORSESHOE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a overstory removal harvest prescription with an estimated average residual basal area of 12ft².
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 18ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all sugar maple, ash, red maple, aspen, black spruce, balsam fir, and miscellaneous species stems; and all less than 14-inch DBH red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell all red maple, aspen, balsam fir, white birch, black spruce, sugar maple, and miscellaneous species stems; and all less than 14-inch DBH red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, white birch, and yellow birch stems; all 14-inch DBH and greater red pine stems; and all advanced sub-merchantable regeneration.
   ➢ In harvest unit 2, reserve and leave undamaged all red oak and white pine stems; and all 14-inch and greater red pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for harvest unit 2.
   ➢ In both harvest units, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ In harvest unit 1, the sale administrator will describe a “Fish Bone” skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas. Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ One skid trail “Freeze Down Crossing” shall be constructed as designated. This crossing may require installing temporary timber mats. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. Contact the Sale Administrator for further information.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ The access road is gated.
   ➢ The total length of the access road system is approximately 17,525 feet. Approximately 14,195 feet of existing access road and 3,330 feet of new access road.
   ➢ Portions of the existing access road may require minimal "Class 3" and "Class 4" reconstruction before use.
   ➢ The entire 3,330 feet of new access road will require "Class 3" new construction.
   ➢ Significant portions of the existing access road will require freeze down before use.
   ➢ Five "Freeze Down Crossings" shall be constructed as designated.

G. OTHER -
   ➢ Steep terrain exists in portions of harvest unit 2.
   ➢ The access road for this sale is currently under contract as access for Douglas County Forestry Department timber sales #4362 and #4363. Contractors are encouraged to plan operations accordingly and take the necessary steps to maintain communications and minimize conflict throughout all operations. Contact the Sale Administrator for further information.
--- See the Douglas County Timber Sale Contract and reverse side for terms and conditions. ---
