DOUGLAS COUNTY TIMBER SALE PROSPECTUS
NOTICE OF SEALED BIDS

March 5, 2019

The Douglas County Forest, Parks and Recreation Committee will receive sealed bids for the purchase of the designated stumpage on the enclosed tracts until 5:30 p.m. Tuesday, March 5, 2019 at the Douglas County Forestry Department, 9182 East Hughes Avenue, P.O. Box 211, Solon Springs, WI 54873. Bids will be opened and read at 6:00 p.m. Tuesday, March 5, 2019 at the Forestry Department Headquarters, 9182 East Hughes Avenue, Solon Springs, WI 54873.

Douglas County will award Contracts to the acceptable highest bidder pending verification and approval of each winning bid. In the event of tie bids, the successful bidder will be determined by the toss of a coin by the acting Chairperson of the Douglas County Forest, Parks, and Recreation Committee. No late bids will be considered. No bid will be considered from bidders who are in non-compliance with any current timber sale Contract with Douglas County, are delinquent in their financial obligations to Douglas County, are involved with a pending timber theft or trespass with the County, or from a bidder whose bidding privileges have been either temporarily or indefinitely revoked by the County.

Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County. For further information, bid forms, maps, or a sample Contract; please contact the Douglas County Forestry Department at (715) 378-2219.

NOTICES:

Daily Telegram – February 19, 22, and 26, 2019

I. BIDDING: It is the responsibility of the bidder to inspect; evaluate the stumpage, examine the locations, investigate field conditions, and check Contract requirements for each tract prior to bidding. Bidders are encouraged to contact the “Prepared By” individual on the enclosed tracts for detailed information regarding each tract (see Section XX for contact information). Submission of bid reflects that the bidder has inspected the tract and clearly understands and agrees to all Contract conditions and requirements herein.

Bids for individual tracts must each be submitted on a standard “Douglas County Forestry Department Bid for Advertised Timber” form, indicating correct tract number, and be presented in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)”. An online version of the bid form reducing the chances for errors is also available at www.douglascountywi.org/forestry. Forms must be completed legibly and correctly in their entirety with all requested information required for bid consideration.

Bids must be submitted separately for each tract by indicating the advertised species, the advertised species product volume, a per product bid price for each species advertised, a total bid value for each species and product advertised, and a total tract bid value for all species and products advertised using the corresponding locations on the bid form.

Considered bids must meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed.

Bids below the minimum advertised total tract value for each species and product listed, the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

The use of an off-highway-vehicle (ATV or snowmobile) on routes or areas closed to motorized use must be approved by the Douglas County Forestry Department prior to occurrence or the operator is subject to penalty as provided by County Ordinance. If granted, permission will be authorized for pre-bidding inspection purposes only and operators shall operate in a safe, responsible, and environmentally friendly fashion. Contact the Department at (715) 378-2219 for further information.

II. BID GUARANTEE BOND: A bid guarantee for a minimum of 10-percent of the total tract bid value must accompany each bid for an individual tract as a bid guarantee bond, payable to Douglas County Forestry Department.

The bid guarantee bond must be in the form of cash, cashier's check, certified check, money order, bank draft, personal check, or business check unless otherwise specified by the County; must be covered by sufficient funds in the account on which it is drawn once submitted to the County, and remain in effect until the Contract is executed by all parties. The County reserves the
right to investigate sufficient funds coverage on any bid guarantee bond provided. In the event that the bid guarantee bond is not covered by sufficient funds, the bidder will be forbid from being awarded the Contract.

The bid guarantee bond will be held by the County until replaced by the successful bidder’s performance bond. Bid guarantee bonds will be returned to unsuccessful bidders.

Failure by the successful bidder to provide the County with the mandatory executed Contra: of sale, performance bond, current certificates of insurance, and current SFI training certificate equivalent to those conditions provided below within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**III. PERFORMANCE BOND:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a performance bond in the amount of 20-percent of the total purchased tract value. Such a performance bond shall be submitted to the County for approval in the form of cash bond, written performance bond (surety bonds will not be accepted), or irrevocable letter of credit. The County reserves the right to limit the form of acceptable performance bond. The Purchaser must indicate on the bid form what form of performance bond will be provided to the County.

In the event that a cash performance bond is indicated on the bid form, the bid guarantee bond will be deposited immediately and applied towards the performance bond. The balance of the cash performance bond is to be provided by the successful bidder pursuant to those conditions provided above.

In the event that a written performance bond or irrevocable letter of credit is indicated on the bid form, the successful bidder will provide the County a written performance bond (surety bonds will not be accepted) or irrevocable letter of credit issued by a bank or insurance company which is a member of the Federal Reserve System or insured by the Federal Deposit Insurance Corporation pursuant to those conditions provided above. The written performance bond or irrevocable letter of credit shall have an expiration date of no less than 30 calendar days past the sale expiration date.

Failure by the successful bidder to provide the County with the mandatory amount and form of performance bond equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**IV. LIABILITY INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of comprehensive general liability insurance from the insurer(s) of the successful bidder or their agents certifying coverage to the limit of $1,000,000 per occurrence and $1,000,000.00 per aggregate for property damage and bodily injury, including death. Such certificate shall name the County as an additional insured and shall be submitted to the County for approval of the insurer(s), the amount, and the form. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**V. WORKERS’ COMPENSATION INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance verifying workers’ compensation coverage or proof of exemption from such coverage as provided by law. Such written certificate or verification shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or written verification or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance for workers’ compensation coverage or exemption from such coverage as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**VI. SFI TRAINING STANDARD:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall
receive a valid certificate of completion for the current Wisconsin Sustainable Forestry Initiative (SFI) training standards or comparable certification training standards of different States (depending on the successful bidder’s address of its principle place of business) as approved by the Forest Industry Safety & Training Alliance (FISTA) which can be contacted at 1-800-551-2656. Such certificate shall be in the name of the individual responsible for signing the Contract on behalf of the successful bidder, or the president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder; and shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine training records itself.

Failure by the successful bidder to provide the County with the mandatory certificate of completion for the current SFI training standards as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VII. CONTRACT EXECUTION: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive the original Contract with all required information completed with the original signature of a president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder.

Failure by the successful bidder to provide the County with the Contract as indicated above or with an incomplete, illegible, or incorrect Contract within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VIII. PAYMENT SCHEDULE: Payment of the initial advance stumpage payment or lump sum payment, is required prior to the commencement of any Contract operations other than road and landing construction activities. Removal of any products prior to receipt of the initial advance stumpage payment or lump sum payment by the County will be treated as harvested without the County’s consent or permission and subjects the Purchaser to civil and/or criminal penalties provided under Douglas County Ordinance #7.6.

The second and subsequent increment installment payments will be due to the County at the point the value of all products removed from the sale reaches 75-percent of the credit on deposit. In no event will payments due be made by the Purchaser to the County more than 15 calendar days from the date of invoice. The County reserves the right to place additional payment requirements on the Purchaser to protect its best interests or those best interests of the public.

The following plan is used by the County to determine the increment schedule required on the enclosed tracts, unless otherwise specified by the County:

<table>
<thead>
<tr>
<th>Total Contract Purchase Value</th>
<th>Increment Schedule</th>

</thead>
<tbody>
<tr>
<td>Lump Sum</td>
<td>100% Payment or Per Harvest Unit (Sec Tract Specs)</td>
</tr>
<tr>
<td>UP to $5,000.00</td>
<td>100% Payment</td>
</tr>
<tr>
<td>$5,000.01 to $10,000.00</td>
<td>50% Payment</td>
</tr>
<tr>
<td>$10,000.01 to $150,000.00</td>
<td>10% Payment</td>
</tr>
<tr>
<td>$150,000.01 and OVER</td>
<td>5%(2),10%(9) Payment</td>
</tr>
</tbody>
</table>

IX. PRODUCT STANDARDS: Standard advertised products are as follows:
- 4" Roundwood Product - A tree, log or stick with a minimum of one 100-inch stick to a 4-inch top diameter.
- Whole-tree Product - All or any woody material from the sheared butt stump of all 2-inch and greater DBH trees to the tip of the tree, including all logs, sticks and branches originating from any stem associated with the tree.
- Softwood Sawlog Product - A tree, log or stick 9-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.
- Hardwood Sawlog Product - A tree, log or stick 10-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.

X. VOLUME AND WEIGHT STANDARDS: The enclosed volumes/weights of products by tract are estimates. The County provides no warranty or guarantee as to the species, product type, quality, quantity, or condition. The bidder is responsible for making these determinations and bidders should inspect and evaluate the timber contained in the enclosed tracts prior to bidding. Standard advertised volume/weight measures are as follows:
- A standard cord is a volume of stacked or piled wood products, including bark and air space, occupying 128 cubic feet.
- A standard MBF is a volume of wood products totaling 1,000 board feet. MBF volume shall be determined using the Scribner Decimal “C” log rule.
- A standard ton is a unit of weight measure equal to 2,000 pounds (907.18 kilograms).

XI. ACCESS: The Purchaser is required to complete all road construction requirements for the enclosed tracts. Location of all road, transportation, and access routes, including associated infrastructure components, for the enclosed tracts are designated by the County and are limited to what is displayed on the maps and in the Contract conditions. The County does not conduct road appraisals. All road and infrastructure construction cost estimates and actual expenses are the responsibility of the Purchaser and bidders should inspect and evaluate these based on Contract requirements and field conditions prior to bidding.

XII. EXTENSIONS: It is expressly understood by the bidder that Contract extensions are not guaranteed and full performance on a Contract is expected prior to the initial expiration date.

XIII. COMMENCEMENT OF OPERATIONS: Operations may not commence on any tract before all Contract execution, insurance, SFI training, financial, and additional required conditions have been successfully met by the Purchaser and approved by the County.

XIV. RECEIPT OF REQUIREMENTS: The bidder and/or successful bidder bears all responsibility for postal or delivery delays outside of the County’s control for all requirements to be received by the County prior to bid consideration and/or Contract execution, including but not limited to; the bid, the bid guarantee bond, the performance bond, liability insurance, workers’ compensation insurance, SFI training standard, the Contract, payments, and all other correspondence, documents, and requirements.

XV. DIRECT SALES: Periodically Douglas County will offer direct stumpage sales. Direct sales are available on a first come, first served basis with the sale offered at or above the total appraised value with no percentage reductions, according to the WDNR Timber Sale Handbook. Please contact the Douglas County Forestry Department at (715) 378-2219 for direct sale availability and/or additional information.

XVI. IRRESPONSIBLE BIDDER: A bidder deemed by the County to be an irresponsible bidder may be refused the opportunity to bid upon or obtain Douglas County timber sales for a pre-determined set time period as determined by the County or indefinitely as deemed in the best interest of the County.

XVII. FOREST CERTIFICATION: The Douglas County Forest, including the areas encompassed by the enclosed tracts, is certified to the standards of the Forest Stewardship Council® (FSC® C006090) FSC 100% and the Sustainable Forestry Initiative® SFI-01617 SFI 100%. Forest products harvested from the Douglas County Forest may be delivered to the destination facility as certified as long as the Contractor hauling the forest products is chain-of-custody (COC) certified or covered under a COC certificate from the destination facility. The Purchaser assumes all responsibility for maintaining COC after leaving the area encompassed by any individual tract.

XVIII. EAB QUARANTINE: As of March 30, 2018, all of Wisconsin has been placed under a Wisconsin Department of Agriculture, Trade, and Consumer Protection (DATCP) and United States Department of Agriculture (USDA) quarantine for Emerald Ash Borer (EAB). Quarantine compliance, including rules and regulations regarding the transport and utilization of ash products, is the full responsibility of the Purchaser. For additional information on the quarantine, including compliance agreements, please contact DATCP at 608-224-4573 and/or the USDA-APHIS at 608-231-9553.

XIX. TRUCK HAULING INFORMATION: The number of Douglas County townships that have developed or are in the process of developing additional policies in the form of regulations to protect their investments in and limit damage caused by heavy equipment to their local township roads continues to increase. The Douglas County Forestry Department has taken an active role in working with these townships in an attempt to alleviate concerns. The Department believes that their intent is not to restrict harvesting and subsequent hauling of timber, but a response to repetitive and inappropriate use by heavy trucks and equipment. Hauling Contractors need to be aware that public relations are vital to their business and inconsiderate and inappropriate actions reflect poorly on all of us in the forest industry.

All required permits and conditions for use of any public roadways other than those managed by the Douglas County Forestry Department are the responsibility of the Purchaser to obtain, keep current, and comply with. The County bears no responsibility or assures guaranteed use of any public roadway outside of its scope of authority used for the purpose of accessing any of the enclosed tracts and any additional requirements, restrictions, conditions, or terms enacted by any roadway authority are the
responsibility of the Purchaser. The County recommends contacting the appropriate roadway authority prior to bidding on any of the enclosed tracts.

Below are the town chair contact information for each township and one village that contain Douglas County forest and special use land within their boundaries. Contacts for the Douglas County Highway Department and the Forestry Department are also included. Bidders should refer to this information as they prepare bids for the enclosed tracts. This information is up-to-date and current at the time of printing only, please contact the town/village, Sale Administrator, or see the “Official E-Directory” link on the Douglas County website www.douglascountywi.org for updates and/or additional information.

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

Bid Guarantee Bond Amount

10% of the Total Tract Bid Value

In the form of: [ ] Cash [ ] Business/Personal Check [ ] Cashier's/Certified Check [ ] Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurance, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

[ ] Cash Performance Bond [ ] Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed, in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a: [ ] Corporation [ ] Partnership [ ] Sole Proprietorship (individual)

Representative (Print Name) __________________________ Title __________________________ Organization Name __________________________

Organization (or Representative) Street Address __________________________ City __________________________ State __________________________ Zip __________________________ Contact Phone Number __________________________

Email Address __________________________ Representative (Signature) __________________________ Date __________________________
Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

   (a) For Ticket Scale Tracts:
   
   ➢ Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
   ➢ Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
   ➢ Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
   ➢ Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
   ➢ Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
   ➢ Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
   ➢ Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
   ➢ Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
   ➢ Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

   (b) For Lump Sum Scale Tracts:

   ➢ Write the words “LUMP SUM” once in column A (under Species).
   ➢ Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.
   * For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

--- The Bid Form MUST BE completed in its entirety --

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
TO DOUGLAS COUNTY FOREST, PARKS, AND RECREATION COMMITTEE:

Submitted in response to the notice of Timber Stumpage for Sale published in the Daily Telegram on February 19, 22, and 26, 2019, I hereby submit the following bid for the advertised timber stumpage to be cut and sold from Douglas County lands described as follows:

Instructions on how to complete the Bid Form

1. Enter the individual tract number at the top right of the Form.

2. Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

   (a) For Ticket Scale Tracts:

   - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
   - Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
   - Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
   - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
   - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
   - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
   - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
   - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
   - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

   (b) For Lump Sum Scale Tracts:

   - Write the words “LUMP SUM” once in column A (under Species).
   - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

   * For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

3. Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

4. Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

5. Mark the type of organization or entity that you are bidding on behalf of.

6. At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

7. Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

8. Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

--- The Bid Form MUST BE completed in its entirety ---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
DOUGLAS COUNTY FORESTRY DEPARTMENT
BID FOR ADVERTISED TIMBER

TO DOUGLAS COUNTY FOREST, PARKS, AND RECREATION COMMITTEE:

Submitted in response to the notice of Timber Stumpage for Sale published in the Daily Telegram on February 19, 22, and 26, 2019, I hereby submit the following bid for the advertised timber stumpage to be cut and sold from Douglas County lands described as follows:

– See reverse side of form for instructions on how to complete –

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

**Bid Guarantee Bond Amount**

10% of the Total Tract Bid Value

In the form of:  
- [ ] Cash  
- [ ] Business/Personal Check  
- [ ] Cashier's/Certified Check  
- [ ] Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

- [ ] Cash Performance Bond  
- [ ] Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a:  
- [ ] Corporation  
- [ ] Partnership  
- [ ] Sole Proprietorship

Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

(a) For Ticket Scale Tracts:

- Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
- Column B - If bidding on advertised 4" Roundwood Cords, list Estimated Volume in 4" Roundwood Cords from the Timber Sale Map per Species.
- Column C - If bidding on advertised 4" Roundwood Cords, enter your Bid Price Per 4" Roundwood Cord per Species.
- Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
- Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
- Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
- Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
- Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
- Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

(b) For Lump Sum Scale Tracts:

- Write the words “LUMP SUM” once in column A (under Species).
- Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.
  * For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

\textit{The Bid Form MUST BE completed in its entirety}---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

TRACT 50-18 (DACLEVE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 1 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all aspen, red maple, sugar maple, balsam fir, white birch, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine, cedar, spruce, and tamarack stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for all harvest units.

F. ACCESS AND ROADS -
   ➢ Two different access roads off Clevedon Road are required to be utilized. Note both access roads on the map. Contact the Sale Administrator for further information.
   ➢ The total length of the access road system is approximately 14,500 feet. Approximately 10,000 feet of existing access road and 4,500 feet of new access road.
   ➢ The entire 10,000 feet of existing access road will require "Class 3" reconstruction.
   ➢ The entire 4,500 feet of new access road will require "Class 3" new construction.
   ➢ Portions of both the existing and new access roads will require freeze down before use.
   ➢ One "Freeze Down Crossing" shall be constructed as designated.
   ➢ A portion of the existing southern access road will be abandoned and relocated as designated. The abandoned segment shall be blocked with "Scattered Blockage Debris" as designated by the Sale Administrator.
   ➢ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

TRACT 59-18 (TOWN ROAD F) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-out harvest prescription with an estimated average residual basal area of 1 ft².

B. SEASONAL RESTRICTIONS -
   ➢ No harvesting operations shall be permitted from March 15th to July 15th.
   ➢ Harvesting operations are limited to frozen ground conditions only on an estimated 15% of the harvest area. Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all aspen, white birch, jack pine, scrub oak, red pine, balsam fir, and miscellaneous species stems; and all less than 10-inch DBH red maple stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine stems and all 10-Inch DBH and greater red maple stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashign Maintenance” is required for all units.
   ➢ One skid trail crossing shall be constructed as designated off Dry Landing Road. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➢ Two skid trail “Freeze Down Crossings” shall be constructed as designated off River Road. All equipment operation and skidding in these portions of the sale areas shall be limited to these crossings.
   ➢ Up to eight landing locations are permitted as designated. Alternative landing locations can be discussed during the pre-operations meeting.
   ➢ The existing access road south off River Road bisects two wildlife openings and four additional openings are within or adjacent to portions of the sale area. Please note that wildlife opening contract conditions shall apply. Contact the Sale Administrator for further information.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 2,000 feet. Approximately 1,600 feet of existing access road and 400 feet of new access road.
   ➢ Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   ➢ The entire 400 feet of new access road will require “Class 3” new construction.
   ➢ An “Earth Berm” shall be installed as designated.

TRACT 26-18 (ROCKET MAN) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 6ft².
   ➢ Harvest unit 2 has an overstory removal harvest prescription with an estimated average residual basal area of 0ft².
   ➢ Harvest unit 3 has a clear-cut harvest prescription with an estimated average residual basal area of 1ft².

B. SEASONAL RESTRICTIONS -
   ➢ Harvest unit 1, all harvesting operations are not restricted by season or time of the year on an estimated 40% of the harvest area (uplands) and shall/may be limited to frozen ground conditions or unusually dry conditions only on an estimated 60% of the harvest area (lowlands). Contact the Sale Administrator for further information.
   ➢ Harvest unit 2, all harvesting operations are not restricted by season or time of the year.
   ➢ Harvest unit 3, all harvesting operations shall be limited to frozen ground conditions only, with no operations including road work and hauling being permitted between between March 1st to July 31st.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all aspen, white birch, red maple, sugar maple, ash, basswood, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all red oak, white birch, red maple, sugar maple, ash, basswood, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell, skid, and haul all black spruce and tamarack stems that contain at a minimum, one 4" Roundwood Product.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, elm, white spruce, and cedar stems.
   ➢ In harvest unit 2, reserve and leave undamaged advanced sub-merchantable regeneration.
   ➢ In harvest unit 3, reserve and leave undamaged all white pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for harvest unit 1.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ Use of any feller-buncher felling equipment (hot saw type or similar) is allowed prior to processing.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Five landing locations shall be identified during the pre-operations meeting.
   ➢ One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ Harvest unit 2, the access road is gated.
   ➢ Portions of the access road is a winter snowmobile and summer ATV trail.
   ➢ The total length of the access road is approximately 12,800 feet.
   ➢ Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   ➢ Portions may require freeze down before use.
   ➢ An "Earth Berm" is located on the access road and shall be reinstalled at the same designated location.

TRACT 46-18 (SLEEPING BEAR) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ▶ Harvest units 1 and 3 have a clear-cut (plantation final rotation) harvest prescription with no residual basal area.
   ▶ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 11 ft².

B. SEASONAL RESTRICTIONS -
   ▶ In harvest units 1 and 2, all harvesting operations are not restricted by season or time of the year.
   ▶ In harvest unit 3, no harvesting operations shall be permitted during the time period when wintertime trail surface grooming activities are occurring on the ski trails.

C. TREES DESIGNATED FOR CUTTING -
   ▶ In harvest units 1 and 3, fell all red pine and miscellaneous species stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ▶ In harvest unit 2, fell all aspen, scrub oak, and miscellaneous species stems that meet the product and utilization standards as per product bid. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ▶ In harvest units 1 and 3, none.
   ▶ In harvest unit 2, reserve and leave undamaged all red pine and jack pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ▶ "Complete Vegetation Maintenance" is required for harvest units 1 and 3.
   ▶ "Slashing Maintenance" for all hardwood stems is required for harvest unit 2.
   ▶ In harvest units 1 and 3, fell all standing non-merchantable dead and dying red pine stems. Process all felled stems into standard 100 inch lengths and scatter. Process all greater than 8-inch DBH non-merchantable downed stems into standard 100 inch lengths and scatter.
   ▶ Portions of the access road system may be utilized for product decking.
   ▶ Up to five landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ▶ The total length of the access road system is approximately 2,680 feet. Approximately 1,800 feet of existing access road and 880 feet of new access road.
   ▶ The entire 1,800 feet of existing access road will require "Class 3" reconstruction.
   ▶ The entire 880 feet of new access road will require "Class 3" new construction.
   ▶ A minimal portion of the existing access road system utilizes a summer ATV trail.
   ▶ Significant portions of the existing access road system utilize winter ski trails.
   ▶ Red Squirrel Loop is a County Forest Road.
   ▶ Two "Earth Berms" shall be installed at locations designated by the Sale Administrator.

G. OTHER -
   ▶ During periods of snow cover, no equipment operation or felling on or across any ski trail.
TRACT 52-18 (POPPLE ISLAND) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 1ft².
   ➢ Harvest unit 2 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 7ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all aspen, red maple, black ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, black ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all white oak, white spruce, balsam fir, and cedar stems.
   ➢ In harvest unit 2, reserve and leave undamaged all cedar and balsam fir stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for both harvest units.
   ➢ In both harvest units, operations shall minimize to the greatest extent possible any damage to advanced white spruce, balsam fir, and cedar regeneration.
   ➢ Five landing locations are permitted as designated, 4 in harvest unit 1 and 1 in harvest unit 2.

F. ACCESS AND ROADS -
   ➢ Vehicular access (in and out) to all harvest units shall be from the north off Fire Lane Road.
   ➢ The total length of the access road system is approximately 12,750 feet. Approximately 12,000 feet of existing access road and 750 feet of new access road.
   ➢ The entire 12,000 feet of existing access road will require “Class 3” reconstruction.
   ➢ The entire 750 feet of new access road will require “Class 3” new construction.
   ➢ Portions of both the existing and new access roads will require freeze down before use.
   ➢ The access road utilizes a significant portion of a winter snowmobile trail.
   ➢ One “Freeze Down Crossing” shall be constructed as designated.
   ➢ An “Earth Berm” shall be installed at a location designated by the Sale Administrator.
   ➢ “Scattered Blockage Debris” is required immediately beyond the designated “Earth Berm” location.

G. OTHER -
   ➢ Internal reserve/exclusion areas that are marked with purple paint are designated as equipment restriction zones and shall be discussed during the pre-operations meeting.

TRACT 54-18 (SCHIEFS PLACE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   > Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 24\text{ft}^2.
   > Harvest unit 2 has an improvement thinning harvest prescription with an estimated average residual basal area of 90\text{ft}^2.

B. SEASONAL RESTRICTIONS -
   > All harvesting operations are not restricted by season or time of the year on an estimated 70% of the harvest area (uplands) and shall be limited to frozen ground conditions only on an estimated 30% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -
   > In harvest unit 1, fell all non-marked red maple, aspen, white birch, sugar maple, basswood, and miscellaneous species stems; and all 6-inch and greater DBH black ash stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   > In harvest unit 2, fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   > In harvest unit 1, reserve and leave undamaged all yellow birch, red oak, cedar, elm, white pine, and white spruce stems; all green marked stems; and all less than 6-inch DBH black ash stems.
   > In harvest unit 2, reserve and leave undamaged all non-marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   > "Slashing Maintenance" is required for harvest unit 1.
   > All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is permitted.
   > Internal harvest unit 1 and harvest unit 2 boundary is designated with double orange markings.
   > The access road may be utilized for product decking.
   > Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   > The total length of the access road system is approximately 9,000 feet. Approximately 5,000 feet of existing access road and 4,000 feet of new access road.
   > The entire 5,000 feet of existing access road will require "Class 2" reconstruction.
   > The entire 4,000 feet of new access road will require "Class 3" new construction.
   > Golden Tall Trail is a County Forest Road.
   > Five permanent "Culvert Crossings" shall be constructed as designated. Please see contract attachment.
   > An "Earth Berm" shall be installed as designated.

G. OTHER -
   > Internal lowland reserve/exclusion areas are designated as equipment restriction zones and shall be discussed during the pre-operations meeting.

TOTALS: 430 XXX XXX $8,858.00

The Aspen volume contains approximately 75% Aspen, 12% Red maple, 7% White Birch, and 6% Misc.
TRACT 57-18 (QDMA) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 32 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all aspen, red maple, white birch, and balsam fir, and miscellaneous stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all red oak, red pine, white pine, and white spruce stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is permitted.
   ➢ Two landings will be restricted to small back-in turn-arounds.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ Small “Road Blockage Devices” shall be installed and “Ripping” is required for all landings upon sale completion.

G. OTHER -
   ➢
The Aspen volume contains approximately 45% Aspen, 24% Red Maple, 19% Tamarack, 5% Balsam Fir, 5% Black Spruce, and 2% Misc.
TRACT 25-18 (MULLIGAN) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 5ft2.
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 14ft2.

B. SEASONAL RESTRICTIONS -
   ➢ In harvest unit 1, all harvesting operations are not restricted by season or time of the year on an estimated 60% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 40% of the harvest area (lowlands). Contact the Sale Administrator for further information.
   ➢ In harvest unit 2, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all aspen, red maple, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, red maple, balsam fir, and miscellaneous species stems: and all tamarack and black spruce stems that contain at minimum two 4” Roundwood Products that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all white birch, black ash, and white spruce stems.
   ➢ In harvest unit 2, reserve and leave undamaged all white birch, yellow birch, white spruce, and white pine stems; and all tamarack and black spruce stems that do not contain at a minimum, two 4” Roundwood Product sticks; and all advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for harvest unit 1.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ In harvest unit 2, operations shall minimize the greatest extent possible any damage to advanced regeneration.
   ➢ Four landing locations shall be identified during the pre-operations meeting.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 8,100 feet. Approximately 7,700 feet of existing access road and 400 feet of new access road.
   ➢ The entire 2,400 feet of existing “Class 3” access road for harvest unit 2 will require “Class 2” upgraded construction.
   ➢ Portions of the existing access road for harvest unit 2, may require minimal “Class 3” reconstruction before use.
   ➢ The entire 400 feet of new access road will require “Class 3” new construction.
   ➢ Access road to harvest unit 2 is a gated winter snowmobile trail and will require freeze down before use.
   ➢ Two “Freeze Down Crossings” shall be constructed as designated.
   ➢ Two permanent “Culvert Crossings” shall be constructed as designated. Please see contract attachment.
   ➢ The access road utilizing the winter recreational trail is gated.

TRACT 41-18 (WILDLIFE OPENING ASPEN) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest units 1 and 2 have a clear-cut harvest prescription with an estimated average residual basal area of 3ft².
   ➢ Harvest unit 3 has a seed tree harvest prescription with an estimated average residual basal area of 30ft².

B. SEASONAL RESTRICTIONS -
   ➢ For short-wood/cut-to-length operations where sheared stems are limbed, topped, and processed at the stump prior to product forwarding, no harvesting operations shall be permitted from April 1st to June 30th. An estimated 55% of the total harvest area (lowlands) shall be limited to frozen ground conditions or unusually dry conditions only. Contact the Sale Administrator for further information.
   ➢ For conventional whole-tree or pole-length skidding and slashing operations where sheared stems are whole-tree or pole-length skidded and slashed at the landing, harvesting operations are limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all non-marked aspen, red maple, sugar maple, basswood, white birch, black ash, white spruce, and balsam fir stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, red maple, black ash, balsam fir, and white spruce stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell, skid, and haul all non-marked aspen, red maple, sugar maple, basswood, white birch, black ash, balsam fir, red oak, and yellow birch stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all green marked stems; and all yellow birch, red oak, white pine, red pine, elm, and cedar stems.
   ➢ In harvest unit 2, reserve and leave undamaged all red oak, yellow birch, elm, cedar, white pine, and red pine stems.
   ➢ In harvest unit 3, reserve and leave undamaged all green marked stems; all advanced sub-merchantable regeneration; and all cedar, red pine, and white pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for harvest units 1 and 2.
   ➢ During non-frozen ground harvesting conditions, no "Whole-tree Product" utilization and all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ The use of corduroy on mainline skid trails may be necessary to minimize soil disturbance and negative impacts to water quality.
   ➢ One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➢ Up to five landing locations are permitted as designated, in harvest units 1 and 3 and 1 in harvest unit 2.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 8,900 feet. Approximately 8,180 feet of existing access road and 720 feet of new access road.
   ➢ Portions of the existing access road will require "Class 2" reconstruction before use.
   ➢ The entire 720 feet of new access road will require "Class 2" new construction.
   ➢ The access road utilizes approximately 6,600 feet of a winter snowmobile trail.
   ➢ One permanent "Culvert Crossing" shall be constructed as designated. Please see contract attachment.
   ➢ Up to eight "Freeze Down Crossings" shall be constructed as designated depending on what portion of the access road is utilized.
   ➢ A 720 foot portion of the existing access road will be abandoned and relocated as designated. The abandoned segment shall be blocked on each end with "Earth Berme" and "Scattered Blockage Debris" as designated by the Sale Administrator.
   ➢ Four wildlife openings are located along the access road. Please note that the wildlife opening contract conditions shall apply.
   ➢ Contact the Sale Administrator for further information.

G. OTHER -
   ➢ Skidding distances will be increased during non-frozen ground harvesting conditions due to lowland ground and topography.
The Red Pine volume contains approximately 88% Red Pine, 11% Aspen, & 1% Misc. The Red Pine volume contains a percentage of bolt-sized material.
TRACT 53-18 (EVEN 400) - SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a 3rd entry improvement thinning harvest prescription with an estimated average residual basal area of 115sf2.
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 0sf2.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all non-marked stems.
   ➢ In harvest unit 2, none.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ Sheared stems shall be limbed and topped at the stump prior to product skidding or forwarding.
   ➢ In harvest unit 2, "Slashing Maintenance" is required for all hardwood stems.
   ➢ One landing location is permitted as designated.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing access road system is approximately 300 feet.
   ➢ The entire 300 feet will require "Class 3" reconstruction.

G. OTHER -
   ➢ The access road is located on other ownership and requires a permit issued by the landowner. Permission has been secured by the County but securing this permit shall be the responsibility of the Purchaser. The County is available to assist the Purchaser upon request. The Purchaser shall be responsible for meeting all permit terms and conditions. Prospective Purchasers are encouraged to contact the Sale Administrator prior to bidding on this tract for further information on permit availability and details.

TRACT 55-18 (BECK HW) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut with reserves harvest prescription with an estimated average residual basal area of 16ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 30% of the harvest area (uplands) and shall be limited to frozen ground conditions only on an estimated 70% of the harvest area (lowlands).

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all non-marked red maple, sugar maple, basswood, ash, white birch, and miscellaneous species stems; and all balsam fir stems that contain at a minimum, one 4' Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all yellow birch, red oak, white spruce, white pine, and red pine stems; all green marked stems; and all balsam fir stems that do not contain at a minimum, one 4' Roundwood Product.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) prior to processing is permitted.
   ➢ "Slashing Maintenance" is required.
   ➢ One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➢ Two landing locations are permitted as designated.
   ➢ The access road may be utilized for product docking.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 2,200 feet.
   ➢ The entire 2,200 feet will require "Class 3" new reconstruction.
   ➢ One "Freeze Down Crossing" shall be constructed as designated.
   ➢ An "Earth Berm" shall be installed as designated.

G. OTHER -
   ➢ Internal lowland reserve/exclusion areas containing no merchantable products or cut species are designated as equipment restriction zones and shall be discussed during the pre-operations meeting.

TRACT 56-18 (RED PINE HOLLY) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Over-story removal harvest prescription with an estimated average residual basal area of 12 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all red pine stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all non-red pine species stems and all advanced sub-merchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Sheared stems shall be limbed and topped at the stump prior to product skidding or forwarding.
   ➢ Up to three landing locations shall be identified during the pre-operations meeting.
   ➢ All landings will be restricted to small back-in turn-arounds.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.

G. OTHER -
   ➢ The North Country National Scenic Hiking Trail (with adjacent campsites) runs along the west side of the harvest units. No equipment operation or falling on or across the trail or near adjacent campsites. Leave all trail markers and signs undamaged. All slash must be pulled back at least 8 feet from the trail edge. Contact the Sale Administrator for further information.
   ➢ The Summer ATV and Winter Snowmobile Trail located within the northern harvest unit is designated as an equipment restriction zone. No vehicle access, hauling, equipment operation, or decking of products is permitted on or along this trail. Contact the Sale Administrator for further information.
   ➢ Access across Solon Springs airport land ownership has been secured by the County. This access shall be utilized for the southern harvest unit. Contact the Sale Administrator for further information.

TRACT 22-18 (Ericson Creek) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 14 ft².
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 15 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all aspen, white birch, red maple, black ash, black spruce, tamarack, white spruce, and balsam fir stems; and all 10-inch and greater DBH sugar maple stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, white birch, red maple, yellow birch, black ash, sugar maple, balsam fir, black spruce, and tamarack stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, white pine, and white cedar stems; all less than 10-inch DBH sugar maple stems; and all advanced sub-merchantable white spruce regeneration.
   ➢ In harvest unit 2, reserve and leave undamaged all green marked stems; all white cedar stems; and all advanced sub-merchantable black spruce regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slash and Operate Maintenance" is required in harvest unit 1 excluding advanced sub-merchantable white spruce regeneration.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➢ Slash and tops should be spread evenly across the harvest units and efficiently utilized to maximize equipment floatation and minimize soil displacement and compaction.
   ➢ The use of freezedown and corduroy on mainline skid trails may be necessary to minimize soil disturbance and negative impacts to water quality.
   ➢ Up to four landing locations shall be identified as designated or during the pre-operations meeting.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ No vehicular access (in or out) to the east of Ericson Creek Road on Hunters Trail or from the desiganted berm location to the north on Ericson Creek Road shall be permitted.
   ➢ The total length of the access road system is approximately 7,900 feet. Approximately 5,100 feet of existing access road and 2,800 feet of new access road.
   ➢ The entire 5,100 feet of existing access will require "Class 3" reconstruction before use.
   ➢ The entire 2,800 feet of new access road with require "Class 3" new construction.
   ➢ One "Freeze Down Crossing" shall be constructed as designated.
   ➢ An "Earth Berm" is located on one of the access roads as designated and shall be reinstalled at the same designated location.
   ➢ Removal and reinstallation of motorized access road sign will be discussed during the pre-operations meeting.
   ➢ Hunters Trail Road and Ericson Creek Road are County Forest Roads.
   ➢ A portion of Hunters Trail Road is a winter snowmobile trail.

TOTALS 2,640 3,125 XXX $29,375.00

The Mixed HW volume contains approximately 37% Red Maple, 20% Ash, 18% Sugar Maple, 15% White Birch, and 10% Misc.
TRACT 28-18 (DECLARATION OF INDEPENDENCE) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
  ➢ Harvest unit 1 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 15ft².
  ➢ Harvest unit 2 has a shelterwood harvest prescription with an estimated average residual basal area of 40ft².
  ➢ Harvest unit 3 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 16ft².

B. SEASONAL RESTRICTIONS -
  ➢ All harvesting operations in harvest units 1 and 2 are not restricted by season or time of year on an estimated 60% of the
    harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 40%
    of the harvest area (lowlands). Contact the Sale Administrator for further information.
  ➢ All harvesting operations in harvest unit 3 shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
  ➢ In harvest unit 1, fell all red maple, sugar maple, white birch, ash, and miscellaneous species stems. Skid and haul all felled
    stems that meet the product and utilization standards as per product bid.
  ➢ In harvest unit 2, fell all non-marked stems. Skid and haul all felled stems that meet the product and utilization standards as
    per product bid.
  ➢ In harvest unit 3, fell all ash, red maple, aspen, white birch, and miscellaneous species stems. Skid and haul all felled stems
    that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
  ➢ In harvest units 1, 2 and 3 reserve and leave undamaged all green marked stems, red oak, black spruce, red pine, yellow
    birch, white pine, and cedar stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
  ➢ "Slashing Maintenance" is required for all harvest units.
  ➢ Four landing locations are permitted as designated. Alternative landing locations can be discussed during the pre-
    operations meeting.
  ➢ In harvest unit 3, No "Whole-tree product" utilization will be allowed.

F. ACCESS AND ROADS -
  ➢ The total length of the access road system is approximately 14,500 feet. Approximately 7,700 feet of existing road and 6,800
    feet of new access road.
  ➢ Portions of the existing access road may require minimal "Class 2" reconstruction before use.
  ➢ 6,500 feet of new access road will require "Class 3" new construction before use, and 300 feet of new additional road will
    require new "Class 2" construction.
  ➢ Significant portions will require freeze down before use.
  ➢ An "Earth Berm" shall be installed as designated.
  ➢ One skid trail crossing shall be constructed as designated. All equipment operation and skidding in this portion of the sale
    area shall be limited to this crossing.
  ➢ One permanent "Culvert Crossing" shall be constructed as designated. Please see contract attachment.

G. OTHER -
  ➢ Note substantial road building requirements requiring adequate road building equipment and capability.

Spatial data and locations are not visible in the image.
TRACT 49-18 (A&A) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 60ft².
   - Harvest unit 2 has a shelterwood harvest prescription with an estimated average residual basal area of 40ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell, skid, and haul all red maple, basswood, ash, sugar maple, aspen, white birch, balsam fir, and miscellaneous stems that meet the product and utilization standards as per product bid.
   - In harvest unit 2, fell, skid, and haul all non-marked red maple, red oak, basswood, ash, sugar maple, aspen, white birch, balsam fir, and miscellaneous stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all red oak, spruce, cedar, and white pine stems.
   - In harvest unit 2, reserve and leave undamaged all spruce, cedar, and white pine stems; and all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slash Management" is required for all harvest units.
   - One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   - Access road system may be utilized for product decking.
   - Up to four landing locations are permitted as designated.

F. ACCESS AND ROADS -
   - Access to all harvest units shall be from the east off Memorial County Forest Road.
   - The total length of the access road system is approximately 19,100 feet. Approximately 11,400 feet of existing access road and 7,700 feet of new access road.
   - Of the 11,400 feet of existing access road, 9,100 feet will require "Class 2" reconstruction and 2,300 feet will require "Class 3" reconstruction as designated.
   - The entire 7,700 feet of new access road will require "Class 3" new construction. Portions may require freeze down before use.
   - Two "Freeze Down Crossings" shall be constructed as designated. These crossings may require installing temporary timber mats. Contact the Sale Administrator for further information.
   - Two "Earth Berms" shall be installed at locations designated by the Sale Administrator.
   - Memorial Road is a County Forest Road.

G. OTHER -
   - The access roads and landing locations requiring new construction are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

TRACT 60-18 (GEHLING'S SQUARE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 302.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all aspen, white birch, red maple, sugar maple, black ash, basswood, balsam fir, and white spruce stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all red oak, red pine, and white pine stems; and all advanced sub-merchantable conifer regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required, excluding desirable advanced sub-merchantable conifer regeneration.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced conifer regeneration.
   ➢ A portion of the existing access road located west of Big Balsam Road bisects a wildlife opening. Please note that wildlife opening contract conditions shall apply. Contact the Sale Administrator for further information.
   ➢ Up to four temporary landing locations shall be identified during the pre-operations meeting. Temporary culvert installation in road ditch approaches may be necessary. Road ditch approaches shall be removed and ditches re-shaped upon sale completion.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.

G. OTHER -
   ➢ No decking of products is permitted on or along Big Balsam Road.
   ➢ Protection of old foundation will be discussed during the pre-operations meeting.

TRACT 51-18 (TWIN CREEK SANCTUARY) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Clear-cut harvest prescription with an estimated average residual basal area of 2 ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   - Fell, skid, and haul all aspen, balsam fir, white birch, red maple, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - Reserves and leave undamaged all white spruce, black spruce, white pine, cedar, and white oak stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - “Slashing Maintenance” is required.
   - One skid trail “Freeze Down Crossing” shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. Contact the Sale Administrator for further information.

F. ACCESS AND ROADS -
   - Access across land under other ownership has been secured by the County.
   - The total length of the access road system is approximately 2,700 feet.
   - The entire 2,700 feet will require “Class 3” new construction.
   - Two permanent “Culvert Crossings” shall be constructed as designated. Please see contract attachment.
   - An “Earth Berm” shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   - Note skidding distances.
The Tamarack volume contains approximately 76% Tamarack and 24% Black Spruce. The Mixed HW volume contains approximately 46% Red Maple, 23% White Spruce, 18% Scrub Oak, 9% Balsam Fir and 4% misc.
TRACT 13-17 (LAST MINUTE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 4ft2.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all tamarack, red maple, white spruce, black spruce, balsam fir, and miscellaneous species stems; and all less than 14-inch DBH scrub oak and red oak stems stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all red pine, white pine, jack pine, cedar, yellow birch, and white birch stems; all 14-inch and greater DBH scrub oak and red oak stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Access road system may be utilized for product decking.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 2,500 feet.
   ➢ The entire 2,500 feet will require "Class 4" new construction.
   ➢ Significant portions will require freeze down before use.
   ➢ An "Earth Bern" shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➢ The access road and landing locations requiring new construction are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

The Black Spruce volume contains 54% Black Spruce and 46% Tamarack. The Mixed HW volume contains 50% Red Maple, 24% Balsam Fir, 19% Ash, and 7% Aspen. The Red Pine volume contains 55% Red Pine, 44% White Pine, and 1% White Spruce.
TRACT 33-17 (SNAKEWOOD) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 10ft².
   - Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 2ft².
   - Harvest unit 3 has a seed tree harvest prescription with an estimated average residual basal area of 23ft².

B. SEASONAL RESTRICTIONS -
   - In harvest units 1 and 2, all harvesting operations shall be limited to frozen ground conditions only.
   - In harvest unit 3, all harvesting operations are limited to non-frozen/non-snow covered ground conditions.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest units 1 and 2, fell all red maple, balsam fir, ash, aspen, and miscellaneous species stems; and all black spruce and tamarack stems that contain at a minimum, two 4" Roundwood Products. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   - In harvest unit 3, fell, skid, and haul all non-marked red pine, white pine, white spruce, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest units 1 and 2, reserve and leave undamaged all red pine, jack pine, white pine, scrub oak, white birch, and yellow birch stems; and all black spruce and tamarack stems that do not contain at a minimum, two 4" Roundwood Products.
   - In harvest unit 3, reserve and leave undamaged all green marked stems; all jack pine stems; and all advanced sub-merchantable aspen regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required for harvest unit 3.
   - In all harvest units, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   - In harvest unit 3, operations shall minimize to the greatest extent possible any damage to advanced aspen regeneration.
   - Two skid trail crossings shall be constructed to access portions of harvest units 1 and 2 as designated. All equipment operation and skidding in these portions of the sale area shall be limited to these crossings. The sale administrator will locate and flag in these skid trails at the time of the pre-operations meeting.
   - Access road system may be utilized for product decking.
   - Five landing locations are permitted as designated.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 3,680 feet. Approximately 2,160 feet of existing access road and 1,870 feet of new access road.
   - The entire 2,160 feet of existing access road will require "Class 3" reconstruction.
   - Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   - The entire 1,870 feet of new access road will require "Class 3" new construction.
   - Four "Earth Berms" shall be installed at locations designated by the Sale Administrator.

G. OTHER -
   - The Red Pine cord volume contains a large percentage of sawlog material.
   - The County has completed pre-harvest scarification in harvest unit 3. Contact the Sale Administrator for further information.
The Mixed HW volume contains approximately 37% Sugar Maple, 18% Ash, 17% Red Maple, 9% Aspen, 7% Basswood, 5% Red Pine, 3% Black Spruce, and 4% Misc. The Mixed HW cord volume contains a large percentage of sawlog-size/quality material in unit 1.
TRACT 36-17 (HORSESHOE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➣ Harvest unit 1 has a overstory removal harvest prescription with an estimated average residual basal area of 12 ft².
   ➣ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 18 ft².

B. SEASONAL RESTRICTIONS -
   ➣ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➣ In harvest unit 1, fall all sugar maple, ash, red maple, aspen, black spruce, balsam fir, and miscellaneous species stems; and all less than 14-inch DBH red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➣ In harvest unit 2, fall all red maple, aspen, balsam fir, white birch, black spruce, sugar maple, and miscellaneous species stems; and all less than 14-inch DBH red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➣ In harvest unit 1, reserve and leave undamaged all red oak, white birch, and yellow birch stems; all 14-inch DBH and greater red pine stems; and all advanced sub-merchantable regeneration.
   ➣ In harvest unit 2, reserve and leave undamaged all red oak and white pine stems; and all 14-inch and greater red pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➣ "Slashing Maintenance" is required for harvest unit 2.
   ➣ In both harvest units, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➣ In harvest unit 1, the sale administrator will describe a "Fish Bone" skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas. Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➣ One skid trail "Freeze Down Crossing" shall be constructed as designated. This crossing may require installing temporary timber mats. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. Contact the Sale Administrator for further information.
   ➣ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➣ The access road is gated.
   ➣ The total length of the access road system is approximately 17,525 feet. Approximately 14,195 feet of existing access road and 3,330 feet of new access road.
   ➣ Portions of the existing access road may require minimal "Class 3" and "Class 4" reconstruction before use.
   ➣ The entire 3,330 feet of new access road will require "Class 3" new construction.
   ➣ Significant portions of the existing access road will require freeze down before use.
   ➣ Five "Freeze Down Crossings" shall be constructed as designated.

G. OTHER -
   ➣ Steep terrain exists in portions of harvest unit 2.
   ➣ The access road for this sale is currently under contract as coosaa for Douglas County Forestry Department timber sales #4362 and #4363. Contractors are encouraged to plan operations accordingly and take the necessary steps to maintain communications and minimize conflict throughout all operations. Contact the Sale Administrator for further information.

   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 0.52.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all jack pine, aspen, scrub oak, red pine, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ None.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Whole-tree Product" utilization only.
   ➢ All "Whole-tree Product" utilization and manufacturing residue (waste material, separator slash, flail residue, etc.) shall be reasonably utilized and removed from the sale area. Reasonable utilization standard shall be determined by the Sale Administrator. Contact the Sale Administrator for further information.
   ➢ All skidding operations shall be limited to whole-tree. Sheared stems shall not be limbed or topped prior to product skidding or forwarding.
   ➢ "Complete Vegetation Maintenance" is required for both harvest units.
   ➢ Access road system may be utilized for product decking.
   ➢ Up to three landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing access road system is approximately 8,400 feet.
   ➢ Portions may require minimal "Class 3" reconstruction before use.
   ➢ Portions of the access road utilizes a winter snowmobile and summer ATV trail.

G. OTHER -
   ➢ A transmission line and associated right-of-way is located directly adjacent to harvest unit 2 alongside County Road T. Use extra care and caution when working in this area.

The Aspen volume contains approximately 92% Aspen, 3% Scrub Oak, 2% Red Maple, and 3% Misc.
The Red Pine volume contains a percentage of bolt-sized material.
TRACT 45-18 (AUTUMN BLAZE ASPEN) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 14ft².
   ➢ Harvest unit 2 has a 3rd entry improvement thinning harvest prescription with an estimated average residual basal area of 110ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid and haul all aspen, scrub oak, red maple, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red pine and white pine stems.
   ➢ In harvest unit 2, reserve and leave undamaged all non-marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ In harvest unit 1, “Slashing Maintenance” is required for all hardwood stems.
   ➢ In harvest unit 2, sheared stems shall be limbed and topped at the stump prior to product skidding or forwarding.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 1,150 feet. Approximately 900 feet of existing access road and 250 feet of new access road.
   ➢ The entire 900 feet of existing access road will require “Class 3” reconstruction.
   ➢ The entire 250 feet of new access road will require “Class 3” new construction.
