

**Monday, APRIL 8, 2019  
7:00 P.M.**

**Room 270  
Government Center**

The Skywarn Training program will cover the following topics:

- The mission of the National Weather Service and how Skywarn Volunteers play an important role.
- Thunderstorm formation, the meteorological dynamics involved, and what it takes for a storm to produce damaging winds, hail, and tornados.
- Thunderstorm detection or what to look for in spotting severe weather development.
- Procedures for reporting information to the National Weather Service.
- Tips to keep you and your family safe during thunderstorms.

**PRESENTED BY : THE DULUTH NATIONAL WEATHER SERVICE  
& DOUGLAS COUNTY EMERGENCY MANAGEMENT**
