DOUGLAS COUNTY TIMBER SALE PROSPECTUS
NOTICE OF SEALED BIDS
October 22, 2019

The Douglas County Forest, Parks and Recreation Committee will receive sealed bids for the purchase of the designated stumpage on the enclosed tracts until 5:30 p.m. Tuesday, October 22, 2019 at the Douglas County Forestry Department, 9182 East Hughes Avenue, P.O. Box 211, Solon Springs, WI 54873. Bids will be opened and read at 6:00 p.m. Tuesday, October 22, 2019 at the Forestry Department Headquarters, 9182 East Hughes Avenue, Solon Springs, WI 54873.

Douglas County will award Contracts to the acceptable highest bidder pending verification and approval of each winning bid. In the event of tie bids, the successful bidder will be determined by the toss of a coin by the acting Chairperson of the Douglas County Forest, Parks, and Recreation Committee. No late bids will be considered. No bid will be considered from bidders who are in non-compliance with any current timber sale Contract with Douglas County, are delinquent in their financial obligations to Douglas County, are involved with a pending timber theft or trespass with the County, or from a bidder whose bidding privileges have been either temporarily or indefinitely revoked by the County.

Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County. For further information, bid forms, maps, or a sample Contract; please contact the Douglas County Forestry Department at (715) 378-2219.

NOTICES:
Daily Telegram – October 8, 11, and 15, 2019

I. BIDDING: It is the responsibility of the bidder to inspect; evaluate the stumpage, examine the locations, investigate field conditions, and check Contract requirements for each tract prior to bidding. Bidders are encouraged to contact the “Prepared By” individual on the enclosed tracts for detailed information regarding each tract (see Section XX for contact information). Submission of bid reflects that the bidder has inspected the tract and clearly understands and agrees to all Contract conditions and requirements herein.

Bids for individual tracts must each be submitted on a standard “Douglas County Forestry Department Bid for Advertised Timber” form, indicating correct tract number, and be presented in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)”. An online version of the bid form reducing the chances for errors is also available at www.douglascountywi.org/forestry. Forms must be completed legibly and correctly in their entirety with all requested information required for bid consideration.

Bids must be submitted separately for each tract by indicating the advertised species, the advertised species product volume, a per product bid price for each species advertised, a total bid value for each species and product advertised, and a total tract bid value for all species and products advertised using the corresponding locations on the bid form.

Considered bids must meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed.

Bids below the minimum advertised total tract value for each species and product listed, the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

The use of an off-highway-vehicle (ATV or snowmobile) on routes or areas closed to motorized use must be approved by the Douglas County Forestry Department prior to occurrence or the operator is subject to penalty as provided by County Ordinance. If granted, permission will be authorized for pre-bidding inspection purposes only and operators shall operate in a safe, responsible, and environmentally friendly fashion. Contact the Department at (715) 378-2219 for further information.

II. BID GUARANTEE BOND: A bid guarantee for a minimum of 10-percent of the total tract bid value must accompany each bid for an individual tract as a bid guarantee bond, payable to Douglas County Forestry Department.

The bid guarantee bond must be in the form of cash, cashier’s check, certified check, money order, bank draft, personal check, or business check unless otherwise specified by the County; must be covered by sufficient funds in the account on which it is drawn once submitted to the County, and remain in effect until the Contract is executed by all parties. The County reserves the
right to investigate sufficient funds coverage on any bid guarantee bond provided. In the event that the bid guarantee bond is not covered by sufficient funds, the bidder will be forbid from being awarded the Contract.

The bid guarantee bond will be held by the County until replaced by the successful bidder’s performance bond. Bid guarantee bonds will be returned to unsuccessful bidders.

Failure by the successful bidder to provide the County with the mandatory executed Contract of sale, performance bond, current certificates of insurance, and current SFI training certificate equivalent to those conditions provided below within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**III. PERFORMANCE BOND:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a performance bond in the amount of 20-percent of the total purchased tract value. Such a performance bond shall be submitted to the County for approval in the form of cash bond, written performance bond (surety bonds will not be accepted), or irrevocable letter of credit. The County reserves the right to limit the form of acceptable performance bond. The Purchaser must indicate on the bid form what form of performance bond will be provided to the County.

In the event that a cash performance bond is indicated on the bid form, the bid guarantee bond will be deposited immediately and applied towards the performance bond. The balance of the cash performance bond is to be provided by the successful bidder pursuant to those conditions provided above.

In the event that a written performance bond or irrevocable letter of credit is indicated on the bid form, the successful bidder will provide the County a written performance bond (surety bonds will not be accepted) or irrevocable letter of credit issued by a bank or insurance company which is a member of the Federal Reserve System or insured by the Federal Deposit Insurance Corporation pursuant to those conditions provided above. The written performance bond or irrevocable letter of credit shall have an expiration date of no less than 30 calendar days past the sale expiration date.

Failure by the successful bidder to provide the County with the mandatory amount and form of performance bond equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**IV. LIABILITY INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of comprehensive general liability insurance from the insurer(s) of the successful bidder or their agents certifying coverage to the limit of $1,000,000 per occurrence and $1,000,000.00 per aggregate for property damage and bodily injury, including death. Such certificate shall name the County as an additional insured and shall be submitted to the County for approval of the insurer(s), the amount, and the form. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance equivalent to those conditions provided above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**V. WORKERS’ COMPENSATION INSURANCE:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive a current certificate of insurance verifying workers’ compensation coverage or proof of exemption from such coverage as provided by law. Such written certificate or verification shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or written verification or to investigate and/or examine the policy itself.

Failure by the successful bidder to provide the County with the mandatory certificate of insurance for workers’ compensation coverage or exemption from such coverage as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

**VI. SFI TRAINING STANDARD:** Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall
receive a valid certificate of completion for the current Wisconsin Sustainable Forestry Initiative (SFI) training standards or comparable certification training standards of different States (depending on the successful bidder’s address of its principle place of business) as approved by the Forest Industry Safety & Training Alliance (FISTA) which can be contacted at 1-800-551-2656. Such certificate shall be in the name of the individual responsible for signing the Contract on behalf of the successful bidder, or the president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder; and shall be submitted to the County for approval. The County reserves the right to require a certified copy of any such certificate or to investigate and/or examine training records itself.

Failure by the successful bidder to provide the County with the mandatory certificate of completion for the current SFI training standards as indicated above within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VII. CONTRACT EXECUTION: Within 30 calendar days immediately following the auction date or before commencement of any Contract operations, whichever occurs first, the successful bidder shall provide and the County shall receive the original Contract with all required information completed with the original signature of a president, principle officer, agent, owner, co-owner, or member of the firm of the successful bidder.

Failure by the successful bidder to provide the County with the Contract as indicated above or with an incomplete, illegible, or incorrect Contract within 30 calendar days immediately following the auction date will result in forfeiture of the bid guarantee bond in its entirety to the County and forbid the bidder from being awarded the Contract.

VIII. PAYMENT SCHEDULE: Payment of the initial advance stumpage payment or lump sum payment, is required prior to the commencement of any Contract operations other than road and landing construction activities. Removal of any products prior to receipt of the initial advance stumpage payment or lump sum payment by the County will be treated as harvested without the County’s consent or permission and subjects the Purchaser to civil and/or criminal penalties provided under Douglas County Ordinance #7.6.

The second and subsequent increment installment payments will be due to the County at the point the value of all products removed from the sale reaches 75%-percent of the credit on deposit. In no event will payments due be made by the Purchaser to the County more than 15 calendar days from the date of invoice. The County reserves the right to place additional payment requirements on the Purchaser to protect its best interests or those best interests of the public.

The following plan is used by the County to determine the increment schedule required on the enclosed tracts, unless otherwise specified by the County:

<table>
<thead>
<tr>
<th>Total Contract Purchase Value</th>
<th>Increment Schedule</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lump Sum</td>
<td>100% Payment or Per Harvest Unit (See Tract Specs)</td>
</tr>
<tr>
<td>UP to $5,000.00</td>
<td>100% Payment</td>
</tr>
<tr>
<td>$5,000.01 to $10,000.00</td>
<td>50% Payment</td>
</tr>
<tr>
<td>$10,000.01 to $150,000.00</td>
<td>10% Payment</td>
</tr>
<tr>
<td>$150,000.01 and OVER</td>
<td>5%(2),10%(9) Payment</td>
</tr>
</tbody>
</table>

IX. PRODUCT STANDARDS: Standard advertised products are as follows:
- 4” Roundwood Product - A tree, log or stick with a minimum of one 100-inch stick to a 4-inch top diameter.
- Whole-tree Product - All or any woody material from the sheared butt stump of all 2-inch and greater DBH trees to the tip of the tree, including all logs, sticks and branches originating from any stem associated with the tree.
- Softwood Sawlog Product - A tree, log or stick 9-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.
- Hardwood Sawlog Product - A tree, log or stick 10-inches or larger top DIB on the small end of a 100-inch length containing Scribner Decimal “C” net scale greater than or equal to 50% of gross scale for the log.

X. VOLUME AND WEIGHT STANDARDS: The enclosed volumes/weights of products by tract are estimates. The County provides no warranty or guarantee as to the species, product type, quality, quantity, or condition. The bidder is responsible for making these determinations and bidders should inspect and evaluate the timber contained in the enclosed tracts prior to bidding. Standard advertised volume/weight measures are as follows:
- A standard cord is a volume of stacked or piled wood products, including bark and air space, occupying 128 cubic feet.
A standard MBF is a volume of wood products totaling 1,000 board feet. MBF volume shall be determined using the Scribner Decimal “C” log rule.

A standard ton is a unit of weight measure equal to 2,000 pounds (907.18 kilograms).

XI. ACCESS: The Purchaser is required to complete all road construction requirements for the enclosed tracts. Location of all road, transportation, and access routes, including associated infrastructure components, for the enclosed tracts are designated by the County and are limited to what is displayed on the maps and in the Contract conditions. The County does not conduct road appraisals. All road and infrastructure construction cost estimates and actual expenses are the responsibility of the Purchaser and bidders should inspect and evaluate these based on Contract requirements and field conditions prior to bidding.

XII. EXTENSIONS: It is expressly understood by the bidder that Contract extensions are not guaranteed and full performance on a Contract is expected prior to the initial expiration date.

XIII. COMMENCEMENT OF OPERATIONS: Operations may not commence on any tract before all Contract execution, insurance, SFI training, financial, and additional required conditions have been successfully met by the Purchaser and approved by the County.

XIV. RECEIPT OF REQUIREMENTS: The bidder and/or successful bidder bears all responsibility for postal or delivery delays outside of the County’s control for all requirements to be received by the County prior to bid consideration and/or Contract execution, including but not limited to; the bid, the bid guarantee bond, the performance bond, liability insurance, workers’ compensation insurance, SFI training standard, the Contract, payments, and all other correspondence, documents, and requirements.

XV. DIRECT SALES: Periodically Douglas County will offer direct stumpage sales. Direct sales are available on a first come, first served basis with the sale offered at or above the total appraised value with no percentage reductions, according to the WDNR Timber Sale Handbook. Please contact the Douglas County Forestry Department at (715) 378-2219 for direct sale availability and/or additional information.

XVI. IRRESPONSIBLE BIDDER: A bidder deemed by the County to be an irresponsible bidder may be refused the opportunity to bid upon or obtain Douglas County timber sales for a pre-determined set time period as determined by the County or indefinitely as deemed in the best interest of the County.

XVII. FOREST CERTIFICATION: The Douglas County Forest, including the areas encompassed by the enclosed tracts, is certified to the standards of the Forest Stewardship Council ® (FSC ® C006090) FSC 100% and the Sustainable Forestry Initiative ® SFI-01617 SFI 100%. Forest products harvested from the Douglas County Forest may be delivered to the destination facility as certified as long as the Contractor hauling the forest products is chain-of-custody (COC) certified or covered under a COC certificate from the destination facility. The Purchaser assumes all responsibility for maintaining COC after leaving the area encompassed by any individual tract.

XVIII. EAB QUARANTINE: As of March 30, 2018, all of Wisconsin has been placed under a Wisconsin Department of Agriculture, Trade, and Consumer Protection (DATCP) and United States Department of Agriculture (USDA) quarantine for Emerald Ash Borer (EAB). Quarantine compliance, including rules and regulations regarding the transport and utilization of ash products, is the full responsibility of the Purchaser. For additional information on the quarantine, including compliance agreements, please contact DATCP at 608-224-4573 and/or the USDA-APHIS at 608-231-9553.

XIX. TRUCK HAULING INFORMATION: The number of Douglas County townships that have developed or are in the process of developing additional policies in the form of regulations to protect their investments in and limit damage caused by heavy equipment to their local township roads continues to increase. The Douglas County Forestry Department has taken an active role in working with these townships in an attempt to alleviate concerns. The Department believes that their intent is not to restrict harvesting and subsequent hauling of timber, but a response to repetitive and inappropriate use by heavy trucks and equipment. Hauling Contractors need to be aware that public relations are vital to their business and inconsiderate and inappropriate actions reflect poorly on all of us in the forest industry.

All required permits and conditions for use of any public roadways other than those managed by the Douglas County Forestry Department are the responsibility of the Purchaser to obtain, keep current, and comply with. The County bears no responsibility or assures guaranteed use of any public roadway outside of its scope of authority used for the purpose of accessing any of the enclosed tracts and any additional requirements, restrictions, conditions, or terms enacted by any roadway authority are the
responsibility of the Purchaser. The County recommends contacting the appropriate roadway authority prior to bidding on any of the enclosed tracts.

Below are the town chair contact information for each township and one village that contain Douglas County forest and special use land within their boundaries. Contacts for the Douglas County Highway Department and the Forestry Department are also included. Bidders should refer to this information as they prepare bids for the enclosed tracts. This information is up-to-date and current at the time of printing only, please contact the town/village, Sale Administrator, or see the “Official E Directory” link on the Douglas County website www.douglascountywi.org for updates and/or additional information.

Total Tract Bid Value

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

**Bid Guarantee Bond Amount**
10% of the Total Tract Bid Value

In the form of: ☐ Cash ☐ Business/Personal Check ☐ Cashier’s/Certified Check ☐ Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

☐ Cash Performance Bond ☐ Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a: ☐ Corporation ☐ Partnership ☐ Sole Proprietorship

(individual)

Representative (Print Name) ☐ Title ☐ Organization Name

Organization (or Representative) Street Address ☐ City ☐ State ☐ Zip ☐ Contact Phone Number

Email Address ☐ Representative (Signature) ☐ Date
Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

(a) For Ticket Scale Tracts:

- Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
- Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
- Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
- Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
- Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
- Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
- Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
- Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
- Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

(b) For Lump Sum Scale Tracts:

- Write the words “LUMP SUM” once in column A (under Species).
- Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

*The Bid Form MUST BE completed in its entirety*

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.

Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

(a) For Ticket Scale Tracts:

- Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
- Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
- Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
- Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
- Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
- Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
- Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
- Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
- Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

(b) For Lump Sum Scale Tracts:

- Write the words “LUMP SUM” once in column A (under Species).
- Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

* For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

The Bid Form MUST BE completed in its entirety---

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
DOUGLAS COUNTY FORESTRY DEPARTMENT
BID FOR ADVERTISED TIMBER

TO DOUGLAS COUNTY FOREST, PARKS, AND RECREATION COMMITTEE:
Submitted in response to the notice of Timber Stumpage for Sale published in the Daily Telegram on October 8, 11 and 15, 2019, I hereby submit the following bid for the advertised timber stumpage to be cut and sold from Douglas County lands described as follows:

– See reverse side of form for instructions on how to complete –

Total Tract Bid Value

Enclosed is a Bid Guarantee Bond drawn payable to Douglas County Forestry Department to accompany this bid as required, in the amount of:

Bid Guarantee Bond Amount
10% of the Total Tract Bid Value

In the form of: ☐ Cash ☐ Business/Personal Check ☐ Cashier's/Certified Check ☐ Money Order

If declared the successful bidder for this tract, I agree to execute a Contract of sale, furnish a satisfactory performance bond amounting to 20-percent of the total tract bid value, provide proof of applicable insurances, and provide a current Wisconsin SFI training certificate within a maximum of 30 calendar days immediately following the auction date or prior to the commencement of any operations.

If declared the successful bidder for this tract, indicate whether you will be providing a cash performance bond, an irrevocable letter of credit, or a written performance bond (surety bonds will not be accepted).

☐ Cash Performance Bond ☐ Irrevocable Letter of Credit or Written Performance Bond

Bids will be awarded based on the total tract bid value, providing all individual bids meet or exceed the minimum total advertised tract value, including the minimum advertised total tract value for each species and product listed; in addition to all other requirements being met. Douglas County reserves the right to reject any or all bids, to waive technicalities, and to accept bids most advantageous to the County.

Indicate whether this bid is being submitted on behalf of a: ☐ Corporation ☐ Partnership ☐ Sole Proprietorship (individual)

Representative (Print Name) Title Organization Name

Organization (or Representative) Street Address City State Zip Contact Phone Number

Email Address Representative (Signature) Date
Instructions on how to complete the Bid Form

(1) Enter the individual tract number at the top right of the Form.

(2) Enter the tract’s advertised species, product volumes, and bid amounts in the table as follows:

(a) For Ticket Scale Tracts:
   - Column A - List advertised species for the tract in same order as listed on Timber Sale Map.
   - Column B - If bidding on advertised 4” Roundwood Cords, list Estimated Volume in 4” Roundwood Cords from the Timber Sale Map per Species.
   - Column C - If bidding on advertised 4” Roundwood Cords, enter your Bid Price Per 4” Roundwood Cord per Species.
   - Column D - If bidding on advertised Whole-tree Cords, list Estimated Volume in Whole-tree Cords from the Timber Sale Map per Species.
   - Column E - If bidding on advertised Whole-tree Cords, enter your Bid Price Per Whole-tree Cord per Species.
   - Column F - If bidding on advertised Sawlogs, list Estimated Volume in Sawlog MBF from the Timber Sale Map per Species.
   - Column G - If bidding on advertised Sawlogs, enter your Bid Price Per Sawlog MBF per Species.
   - Column H - Enter the Total Bid Value by Species & Product by multiplying the advertised bid product volume by the corresponding product bid price.
   - Total all species and product amounts in column H and enter the Total Tract Bid Value at the bottom of the column.

(b) For Lump Sum Scale Tracts:
   - Write the words “LUMP SUM” once in column A (under Species).
   - Enter the single value of your total lump sum bid for the tract under the Total Tract Bid Value at the bottom of column H.

   * For lump sum scale tracts, values for individual bid price per product and species and total bid value by species and product DO NOT have to be entered. However, you can enter these figures to assist you in calculating your total lump sum bid for all advertised species and products if desired.

(3) Enter the Bid Guarantee Bond amount (10% of the Total Tract Bid Value) and mark the appropriate form of bond that will accompany your bid for the tract.

(4) Mark the type of Performance Bond that you will provide if declared the successful bidder for the tract.

(5) Mark the type of organization or entity that you are bidding on behalf of.

(6) At the bottom of the Form, print your name, your title, the organization’s name you are bidding on behalf of, your affiliated organization’s or your address, your contact phone number (please include multiple numbers if appropriate), and email address.

(7) Sign and date the Form with an original signature and date. All forms must be signed and dated to be considered.

(8) Enclose the Form along with your Bid Guarantee Bond in a sealed envelope clearly marked “Sealed Timber Bid Tract (include tract number)” and deliver to the Douglas County Forestry Department by the date and time of the deadline. Individual separate envelopes must be used for each tract.

---

*The Bid Form MUST BE completed in its entirety*

Bids below the minimum advertised total tract value for each species and product listed, below the minimum total advertised tract value; or incomplete, illegible, or incorrect bids will not be considered.
This map shows approximate locations of tracts offered for the October 22, 2019 Timber Auction. For more precise tract information, refer to the individual tract maps in the prospectus. This map is for reference only.

The Mixed HW volume contains approximately 23% Red Maple, 22% Red Oak, 19% Sugar Maple, 14% White Birch, 9% Black Ash, 7% Yellow Birch & 6% Basswood. The Mixed HW volume contains approximately 18% sawlog size material.
TRACT 42-18 (WARMING SHACK HW) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a shelterwood harvest prescription with an estimated average residual basal area of 37 ft².
   ➢ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 7 ft².

B. SEASONAL RESTRICTIONS -
   ➢ In harvest unit 1, no harvesting operations shall be permitted from April 15th to July 15th (Oak Wilt). Please note that lowland portions may not be operable during non-frozen ground conditions.
   ➢ In harvest unit 2, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all non-marked red maple, red oak, sugar maple, aspen, white birch, aspen, black ash, yellow birch, basswood, and balsam fir stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all non-marked red maple, sugar maple, aspen, white birch, black ash, basswood, and balsam fir stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all white pine and white spruce stems; and all green marked stems.
   ➢ In harvest unit 2, reserve and leave undamaged all red oak, yellow birch, white pine, and white spruce stems; and all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ *Slashing Maintenance* is required for both harvest units.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ In harvest unit 2, one skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing. Contact the Sale Administrator for further information.
   ➢ Up to four landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 12,000 feet. Approximately 11,200 feet of existing access road and 800 feet of new access road.
   ➢ Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   ➢ The entire 800 feet of new access road will require "Class 3" new construction. Portions may require freeze down before use.
   ➢ All harvest unit 2 access shall utilize the access road beginning in harvest unit 1 as designated. No access to harvest unit 2 from the west along the entire snowmobile trail shall be permitted.
   ➢ An "Earth Berm" is located on the access road and shall be reinstalled at the same designated location.

G. OTHER -
   ➢ A snowmobile trail runs through and adjacent to large portions of the harvest units and a significant section will be utilized for access. In harvest unit 1, up to three designated trail crossing points shall be identified during the pre-operations meeting. All hauling, skidding, and equipment operation from one side of the trail to the other shall be limited to these crossings. Leave all trail markers and signs undamaged. All slash must be pulled back at least 8 feet from the trail edge. Trail crossing must be maintained in safe condition at all times as directed by the Sale Administrator. Use extra care and caution when crossing the trail.

TOTALS 5,315 XXX XXX $83,794.00

The Mixed HW volume contains approximately 48% Red Maple, 23% Black Ash, 15% Sugar Maple, 6% Basswood, 5% White Birch, 2% Red Oak, & 1% White Ash. The Tamarack volume contains approximately 90% Tamarack & 10% Black Spruce.
TRACT 43-18 (SOUTH MOOSE HW) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ▶ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 4ft².
   ▶ Harvest unit 2 has an all-aged single tree selection thinning harvest prescription with an estimated average residual basal area of 73ft².

B. SEASONAL RESTRICTIONS -
   ▶ No harvesting operations shall be permitted in either harvest unit from April 15th to July 15th (Oak Will).
   ▶ Please note that lowland portions (approximately 20% of the harvest area) are very likely to be non-operable during non-frozen ground conditions.

C. TREES DESIGNATED FOR CUTTING -
   ▶ In harvest unit 1, fell, skid, and haul all aspen, red maple, black ash, sugar maple, basswood, white birch, white ash, tamarack, and black spruce stems that meet the product and utilization standards as per product bid.
   ▶ In harvest unit 2, fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ▶ In harvest unit 1, reserve and leave undamaged all red oak, white spruce, and white pine stems.
   ▶ In harvest unit 2, reserve and leave undamaged all non-marked stems.
   ▶ In harvest unit 1 and 2, reserve and leave undamaged all advanced sub-merchantable red oak and hardwood regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ▶ "Slashing Maintenance" is required for harvest unit 1.
   ▶ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ▶ Up to four landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ▶ The total length of the access road system is approximately 20,160 feet. Approximately 12,685 feet of existing access road and 7,475 feet of new access road.
   ▶ Portions of the existing access road may require minimal "Class 2" reconstruction before use.
   ▶ The entire 7,475 feet of new access road will require "Class 2" new construction.
   ▶ Five permanent "Culvert Crossings" shall be constructed as designated. Please see contract attachment.
   ▶ The access road crosses a winter snowmobile trail.
   ▶ An "Earth Berm" shall be installed as designated.

The Mixed HW volume contains approximately 31% Black Ash, 16% Sugar Maple, 15% Red Oak, 13% Red Maple, 10% Basswood, 6% Aspen, 5% White Birch, 3% White Spruce and 1% Misc.
TRACT 22-19 (MAKING THE CONNECTION) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Seed tree harvest prescription with an estimated average residual basal area of 17 ft²

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 85% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 15% of the harvest area (lowlands). Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all non-marked sugar maple, red maple, aspen, black ash, white ash, white birch, white spruce, basswood, ironwood, and miscellaneous species stems; and all greater than 10-inch DBH red oak stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white pine, yellow birch, and elm stems; all green marked stems; all 10-inch and less DBH red oak stems; and all advanced sub-merchantable red oak regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Complete Vegetation Maintenance" is required, excluding desirable advanced sub-merchantable red oak regeneration.
   ➢ Two landing locations shall be identified during the pre-operations meeting.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 7,200 feet. Approximately 2,700 feet of existing "Class 2" access road and 4,500 feet of new access road.
   ➢ Portions of the existing access road may require minimal "Class 2" reconstruction before use.
   ➢ The entire 2,700 feet of new access road will require "Class 2" new construction.
   ➢ Three permanent "Culvert Crossings" shall be constructed as designated. Please see contract attachment.
   ➢ Two permanent "Rock Ford Crossings" shall be constructed as designated. Please see contract attachment.
   ➢ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.
   ➢ West Crotte Brook Road is a County Forest Road.

G. OTHER -
   ➢ Note skidding distances.

TRACT 16-19 (SKUNK LIGHTNING) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a 2nd entry improvement thinning harvest prescription with an estimated average residual basal area of 138ft².
   ➢ Harvest units 2 and 3 have a clear-cut harvest prescription with an estimated average residual basal area of 8ft².

B. SEASONAL RESTRICTIONS -
   ➢ In harvest units 1 and 2, all harvesting operations are not restricted by season or time of the year.
   ➢ In harvest unit 3, all harvesting operations shall be limited to frozen ground or unusually dry conditions only. Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, scrub oak, and jack pine stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell all aspen, red maple, black ash, and scrub oak stems; and all balsam fir stems that contain at a minimum, one 4" Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all non-marked red pine stems.
   ➢ In harvest unit 2, reserve and leave undamaged all red pine, white pine, and balsam fir stems.
   ➢ In harvest unit 3, reserve and leave undamaged all white birch, red pine, white pine, black spruce, and white spruce stems; and all balsam fir stems that do not contain at a minimum, one 4" Roundwood Product.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ In harvest units 2 and 3, “Slashing Maintenance” is required for all hardwood stems excluding white birch.
   ➢ In harvest units 2 and 3, all harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ In harvest unit 1, all harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) is prohibited.
   ➢ In harvest unit 3, operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Four landing locations are permitted as designated.
   ➢ Portions of the access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 3,660 feet. Approximately 660 feet of existing access road and 3,000 feet of new access road.
   ➢ Portions of the existing access roads may require minimal “Class 3” reconstruction before use.
   ➢ The entire 660 feet of new access road will require “Class 3” new construction. Portions may require freeze down before use.
   ➢ Two “Earth Berms” shall be installed as designated.
   ➢ Access across land under other ownership has been secured by the County.
   ➢ Resinosa Road is a County Forest Road, winter snowmobile trail, and summer ATV/UTV trail. No decking of products is permitted along this road.

G. OTHER -
   ➢ In harvest unit 3, internal reserve/exclusion areas that are marked with purple paint at or near Diameter at Breast Height (DBH) are designated as equipment restriction zones.
   ➢ A large industrial pipeline and associated right-of-way is located close to harvest units 1 and 3 along U.S. Highway 53. This right-of-way is designated as an equipment restriction zone, no equipment operation is permitted in this area.

TRACT 21-19 (RED RED PINE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ 3rd entry improvement thinning harvest prescription with an estimated average residual basal area of 123#2.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all jack pine and miscellaneous species stems and all orange marked red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all non-marked red pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ Sheared stems shall be limbed and topped at the stump prior to product skidding or forwarding.
   ➢ Access road system shall be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The entire 1,400 feet of existing access road will require "Class 3" reconstruction.
   ➢ An "Earth Berm" shall be installed as designated.
   ➢ Resinosa Road is a County Forest Road, winter snowmobile trail, and summer ATV/UTV trail. No decking of products is permitted along this road.

G. OTHER -
   ➢ The red pine volume contains a percentage of bolt-sized material.
   ➢ Opportunity for harvesting and hauling during the spring road weight restriction period may exist utilizing Resinosa County Forest Road to East Flowage Lane but is not guaranteed. NOTE: East Flowage Lane is a Town of Gordon Road. Prior approval is required. Contact the Sale Administrator for further information.

The Mixed HW volume contains approximately 31% Sugar Maple, 27% Basswood, 16% Red Maple, 16% Ash, and 10% Misc. The Red Oak volume contains approximately 85% of sawlog material over 12 inches in diameter.
TRACT 28-19 (COMBINE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Seed tree harvest prescription with an estimated average residual basal area of 15 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 30% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 10% of the harvest area (lowlands). Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all non-marked red maple, red oak, sugar maple, basswood, ash, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all red pine and white pine stems; all green marked stems; and all advanced sub-merchantable red oak regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Complete Vegetation Maintenance" is required, excluding desirable advanced sub-merchantable red oak regeneration.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ The access road is gated.
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing "Class 2" access road system is approximately 2,100 feet. The entire 2,100 feet will require "Class 2" reconstruction.

TRACT 33-19 (ASHPEN) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ▶ Clear-cut harvest prescription with an estimated average residual basal area of 7ft².

B. SEASONAL RESTRICTIONS -
   ▶ In harvest unit 1, all harvesting operations are not restricted by season or time of the year.
   ▶ In harvest unit 2 and 3, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ▶ Fell, skid, and haul all non-marked red maple, sugar maple, basswood, ash, cherry, asper, white birch, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ▶ Reserve and leave undamaged all red oak, red pine, white pine, white spruce, yellow birch, cedar, and elm stems; and all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ▶ "Slashing Maintenance" is required for all hardwood stems in all units.
   ▶ Up to four landing locations shall be identified during the pre-operations meeting.
   ▶ Portions of the access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ▶ The access road is gated on both the east and west side of County Highway D.
   ▶ The total length of the existing access road system is approximately 11,190 feet. Portions will require "Class 3" reconstruction before use.
   ▶ Significant portions of the harvest unit 2 access road will require freeze down before use.
   ▶ All access to harvest unit 1 shall be from the east off County Highway D. No access from the south off the South Shore Grade shall be permitted.
   ▶ Two "Freeze Down Crossings" shall be constructed as designated.
   ▶ The access road utilizes a significant portion of a winter snowmobile trail.

G. OTHER -
   ▶ 3-year term of contract.
   ▶ Note skidding distances.
   ▶ Access to harvest unit 3 across land under other ownership has been secured by the County.

Detailed View of Portion of Harvest Unit 1.
TRACT 35-19 (CHAGA TEE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a seed tree harvest prescription with an estimated average residual basal area of 9ft².
   ➢ Harvest unit 2 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 20ft².
   ➢ Harvest unit 3 has a clear-cut harvest prescription with an estimated average residual basal area of 1ft².
   ➢ Harvest unit 4 has a 3rd entry Improvement thinning harvest prescription with an estimated average residual basal area of 118ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year on an estimated 50% of the harvest area (uplands) and shall be limited to frozen ground conditions or unusually dry conditions only on an estimated 50% of the harvest area (lowlands). Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all white birch, aspen, red maple, sugar maple, balsam fir, black ash, tamarack, black spruce, and miscellaneous species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all black ash species stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 3, fell all aspen, red maple, sugar maple, and miscellaneous species stems; and all balsam fir stems that contain at a minimum, one 4" Roundwood Product. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 4, fell all orange marked red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all yellow birch, red pine, red oak, and green marked stems.
   ➢ In harvest unit 2, reserve and leave undamaged all balsam fir, white birch, red maple, yellow birch, white pine, and tamarack stems.
   ➢ In harvest unit 3, reserve and leave undamaged all white pine and white birch stems; and all balsam fir stems that do not contain at a minimum, one 4" Roundwood Product.
   ➢ In harvest unit 4, reserve and leave undamaged all non-marked red pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Sla•shing Maintenance” is required for all hardwood stems in harvest units 1, 2, and 3.
   ➢ In harvest unit 4, all harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ In harvest units 1 and 3 the sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to this layout.
   ➢ Up to five landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ Portions of the access road are gated.
   ➢ Portions of the access road is blocked with an “Earth Berm”. Berm removal is recommended during non-frozen ground conditions.
   ➢ The total length of the existing access road system is approximately 14,470 feet. Portions may require minimal "Class 3" reconstruction before use.
   ➢ Two permanent "Culvert Crossings" shall be constructed. Please see contract attachment.
   ➢ One "Freeze Down Crossing" shall be constructed as designated.
   ➢ The access road utilizes a significant portion of a winter snowmobile trail.
   ➢ Two "Earth Berms" are located on the access road and shall be reinstalled at the same designated locations.
   ➢ Pikes Peak Road is a County Forest Road, winter snowmobile trail, and summer ATV/UTV trail. No decking of products is permitted on or along this road.

G. OTHER -
   ➢ The Red Pine cord volume contains a percentage of bolt and sawlog size material. 13 inch average stem diameter.

   ➢ Harvest unit 2 has a clear-cut with reserves harvest prescription with an estimated average residual basal area of 20ft2.

B. SEASONAL RESTRICTIONS -
   ➢ In harvest unit 1, all harvesting operations are not restricted by season or time of the year on an estimated 70% of the harvest area (uplands) and shall be limited to frozen or very dry conditions only on an estimated 30% of the harvest area (lowlands).
   ➢ In harvest unit 2, all harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all red maple, aspen, balsam fir, and sugar maple stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all red oak, red maple, aspen, sugar maple, balsam fir, basswood, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all black ash, red oak, and white spruce stems; and all advanced submerchantable red oak and aspen regeneration.
   ➢ In harvest unit 2, reserve and leave undamaged all white birch and yellow birch stems; and all advanced red oak, yellow birch, and white birch submerchantable regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required in both harvest units for ironwood stems.
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Three landing locations are permitted as designated.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ Access across land under other ownership has been secured by the County.
   ➢ The total length of the access road system is approximately 5,120 feet. Approximately 4,500 feet of existing access road and 620 feet of new access road.
   ➢ The entire 4,500 feet of existing access road will require "Class 3" reconstruction.
   ➢ The entire 620 feet of new access road will require "Class 3" new construction.
   ➢ Two permanent "Culvert Crossings" shall be constructed as designated. Please see contract attachment.

G. OTHER -
   ➢ Protection of survey monument will be discussed during the pre-operations meeting.
   ➢ Internal reserve/exclusion areas that are marked with purple paint at or near Diameter at Breast Height (DBH) are designated as equipment restriction zones.

The Mixed HW volume contains approximately 34% Ash, 28% Red Maple, 19% Sugar Maple, 17% White Birch, & 2% Basswood. The Black Spruce volume contains approximately 42% Black Spruce, 40% Balsam Fir, 12% White Spruce, & 6% Tamarack.
TRACT 22-18 (Ericson Creek) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➤ Harvest unit 1 has a clear-cut with reserve harvest prescription with an estimated average residual basal area of 14ft².
   ➤ Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 15ft².

B. SEASONAL RESTRICTIONS -
   ➤ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➤ In harvest unit 1, fell all aspen, white birch, red maple, black ash, black spruce, tamarack, white spruce, and balsam fir stems; and all 10-inch and greater DBH sugar maple stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➤ In harvest unit 2, fell, skid, and haul all aspen, white birch, red maple, yellow birch, black ash, sugar maple, balsam fir, black spruce, and tamarack stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➤ In harvest unit 1, reserve and leave undamaged all red oak, white pine, and white cedar stems; all less than 10-inch DBH sugar maple stems; and all advanced sub-merchantable white spruce regeneration.
   ➤ In harvest unit 2, reserve and leave undamaged all green marked stems; all white cedar stems; and all advanced sub-merchantable black spruce regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➤ “Slashing Maintenance” is required in harvest unit 1 excluding advanced sub-merchantable white spruce regeneration.
   ➤ All harvesting operations shall be limited to short-wood/cut-to-length operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➤ One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   ➤ Slash and tops should be spread evenly across the harvest units and efficiently utilized to maximize equipment flotation and minimize soil displacement and compaction.
   ➤ The use of freezedown and corduroy on mainline skid trails may be necessary to minimize soil disturbance and negative impacts to water quality.
   ➤ Up to four landing locations shall be identified as designated or during the pre-operations meeting.
   ➤ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➤ No vehicular access (in or out) to the east of Ericson Creek Road on Hunters Trail or from the designated berm location to the north on Ericson Creek Road shall be permitted.
   ➤ The total length of the access road system is approximately 7,900 feet. Approximately 5,100 feet of existing access road and 2,800 feet of new access road.
   ➤ The entire 5,100 feet of existing access will require "Class 3" reconstruction before use.
   ➤ The entire 2,800 feet of new access road with require "Class 3" new construction.
   ➤ One "Freeze Down Crossing" shall be constructed as designated.
   ➤ An "Earth Berm" is located on one of the access roads as designated and shall be reinstalled at the same designated location.
   ➤ Removal and reinstalliation of motorized access road sign will be discussed during the pre-operations meeting.
   ➤ Hunters Trail Road and Ericson Creek Road are County Forest Roads.
   ➤ A portion of Hunters Trail Road is a winter snowmobile trail.

The Mixed HW volume contains approximately 44% Red Maple, 31% Sugar Maple, 12% White Birch, 5% Basswood, 4% Ash, 2% Balsam Fir, 1% Aspen and 1% Misc.
TRACT 49-18 (A&A) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a clear-cut harvest prescription with an estimated average residual basal area of 6ft².
   ➢ Harvest unit 2 has a shelterwood harvest prescription with an estimated average residual basal area of 40ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell, skid, and haul all red maple, basswood, ash, sugar maple, aspen, white birch, balsam fir, and
     miscellaneous stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all non-marked red maple, red oak, basswood, ash, sugar maple, aspen, white birch,
     balsam fir, and miscellaneous stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all red oak, spruce, cedar, and white pine stems.
   ➢ In harvest unit 2, reserve and leave undamaged all spruce, cedar, and white pine stems; and all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required for all harvest units.
   ➢ One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this
     portion of the sale area shall be limited to this crossing.
   ➢ Access road system may be utilized for product decking.
   ➢ Up to four landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ Access to all harvest units shall be from the east off Memorial County Forest Road.
   ➢ The total length of the access road system is approximately 19,100 feet. Approximately 11,400 feet of existing access road
     and 7,700 feet of new access road.
   ➢ Of the 11,400 feet of existing access road, 9,100 feet will require "Class 2" reconstruction and 2,300 feet will require "Class 3"
     reconstruction as designated.
   ➢ The entire 7,700 feet of new access road will require "Class 3" new construction. Portions may require freeze down before
     use.
   ➢ Two "Freeze Down Crossings" shall be constructed as designated. These crossings may require installing temporary timber
     mats. Contact the Sale Administrator for further information.
   ➢ Two "Earth Berms" shall be installed at locations designated by the Sale Administrator.
   ➢ Memorial Road is a County Forest Road.

G. OTHER -
   ➢ The access roads and landing locations requiring new construction are not marked in the field. The Sale Administrator will
     locate, identify, and flag these in during the pre-operations meeting.

The Aspen volume contains approximately 70% Aspen, 15% Ash, 8% Balsam Fir, and 7% Misc.
A. PRESCRIPTION -
   ➢ Clear cut harvest prescription with an estimated average residual basal area of 74 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all aspen, tamarack, white birch, red maple, black ash, balsam fir, black spruce, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all white spruce, red pine, and jack pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ "Slashing Maintenance" is required.
   ➢ Two landing locations shall be identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 1,110 feet. Approximately 480 feet of existing access road and 630 feet of new access road.
   ➢ Portions of the existing access road may require minimal "Class 3" reconstruction before use.
   ➢ The entire 630 feet of new access road will require "Class 4" new construction with significant freeze down before use.
   ➢ Town road ditch shall be re-installed upon sale completion.
   ➢ One "Freeze Down Crossing" shall be constructed as designated. This crossing are not marked in the field and shall be identified during the pre-operations meeting.
   ➢ "Scattered Blockage Debris" is required as designated by the Sale Administrator.

G. OTHER -
   ➢ Note skidding distances.
   ➢ Access to the islands by way of access road or skid trail shall be discussed and determined during the pre-operations meeting.
   ➢ No access roads, skid trails, or landing locations are marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

TRACT 23-19 (BLACK PODS) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Clear-cut harvest prescription with an estimated average residual basal area of 7ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell, skid, and haul all aspen, red maple, white birch, sugar maple, black ash, balsam fir, and black spruce stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all red oak, white spruce, and white pine stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for both harvest units.
   ➢ Up to three landing locations shall be identified during the pre-operations meeting.
   ➢ In harvest unit 2, the access road bisects a wildlife opening. Please note than wildlife opening contract conditions shall apply. Contact the Sale Administrator for further information.

F. ACCESS AND ROADS -
   ➢ The total length of the access road system is approximately 7,195 feet. Approximately 3,732 feet of existing access road and 3,463 feet of new access road.
   ➢ Portions of the existing access road may require minimal “Class 3” reconstruction before use.
   ➢ The first 250 foot segment of the new access road into harvest unit 1 will require “Class 2” new construction. The remaining 3,213 feet of new access road into harvest units 1 and 2 will require “Class 3” new construction.
   ➢ One permanent “Culvert Crossing” shall be constructed as designated. Please see contract attachment.
   ➢ In harvest unit 1, access is across land under other ownership. Permission has been secured by the County but final road location, that may deviate from what is displayed on the map, will be identified and flagged in during the pre-operations meeting.
   ➢ In harvest unit 2, the access road and landing location requiring new construction are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.
   ➢ In harvest unit 2, the access road is gated and utilizes a significant portion of a winter snowmobile trail.
   ➢ In harvest unit 2, “Scattered Blockage Debris” is required immediately beyond the intersection of the new road construction and the recreational trail as designated by the Sale Administrator.

The Mixed HW volume contains approximately 28% Sugar Maple, 20% Red Maple, 12% Red Oak, 10% Basswood, 10% Yellow Birch, 6% White Birch, 5% Aspen, 5% Ash, and 4% Misc.
TRACT 24-19 (INGRED) -- SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Harvest unit 1 has an all-aged group selection harvest prescription with an estimated average residual basal area of 1ft² within the harvest gaps.
   - Harvest unit 2 has a clear-cut harvest prescription with an estimated average residual basal area of 1ft².

B. SEASONAL RESTRICTIONS -
   - No harvesting operations shall be permitted in either harvest unit from April 1st to May 31st.

C. TREES DESIGNATED FOR CUTTING -
   - In harvest unit 1, fell all non-marked sugar maple, white birch, red oak, basswood, yellow birch, and miscellaneous species stems within the designated harvest groups. Skid and haul all felled stems that meet the product and utilization standards as per product bid. Group boundaries are designated with an orange ring and triangle symbol facing the interior of the group on the border trees. No trees between groups are marked, but select operational trees will require removal to accommodate equipment. Contact the Sale Administrator for further information.
   - In harvest unit 2, fell, skid, and haul all red maple, sugar maple, aspen, white birch, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - In harvest unit 1, reserve and leave undamaged all green marked stems within the groups and all species stems outside of the groups.
   - In harvest unit 2, reserve and leave undamaged all red oak stems and all advanced sub-merchantable advanced regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - In harvest unit 1, "Slashing Maintenance" is required.
   - All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   - Two landing locations are permitted as designated.
   - Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 4,360 feet. Approximately 3,360 feet of existing access road and 1,000 feet of new access road.
   - The entire 3,360 feet of existing access road will require "Class 3" reconstruction.
   - The entire 1,000 feet of new access road will require "Class 3" new construction.
   - One permanent "Culvert Crossing" shall be constructed as designated. Please see contract attachment.
   - One temporary "Timber Bridge Crossing" shall be constructed. Please see contract attachment.
   - An "Earth Berm" shall be installed as designated.
   - Kestrel Road is a County Forest Road.

G. OTHER -
   - Harvesting this sale with the aid of Avenza/PDF maps (smartphone app) will assist in identifying group locations. Contact the Sale Administrator for further information.

TRACT 26-19 (END OF POLICY) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   - Seed tree harvest prescription with an estimated average residual basal area of 12ft².

B. SEASONAL RESTRICTIONS -
   - All harvesting operations are not restricted by season or time of the year on an estimated 70% of the harvest area (uplands) and shall be limited to frozen ground conditions only on an estimated 30% of the harvest area (lowlands). Contact the Sale Administrator for further information.

C. TREES DESIGNATED FOR CUTTING -
   - Fell, skid, and haul all non-marked red maple, white birch, aspen, red oak, ash, balsam fir, and miscellaneous species stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   - Reserve and leave undamaged all white pine stems and all green marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   - "Slashing Maintenance" is required.
   - All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   - One skid trail "Freeze Down Crossing" shall be constructed as designated. All equipment operation and skidding in this portion of the sale area shall be limited to this crossing.
   - A very small portion of the southern harvest unit directly adjacent to Breitzman Lake Road will require Town of Summit permission to deck products along Breitzman Lake Road. Contact the Sale Administrator for further information.
   - Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   - The total length of the access road system is approximately 3,700 feet. Approximately 2,200 feet of existing access road and 1,500 feet of new access road.
   - Portions of the existing access road will require minimal "Class 3" reconstruction before use.
   - The entire 1,500 feet of new access road will require "Class 3" new construction.
   - An "Earth Berm" shall be installed as designated.
   - Fred Bear Ridge is a County Forest Road and winter snowmobile trail.

G. OTHER -
   - Note skidding distances.
   - Access to the three small southern harvest units by way of skid trails off the Fred Bear Ridge landing shall be discussed and determined during the pre-operations meeting. All equipment operation and skidding shall be limited to these trails.
   - No access roads, skid trails, or landing locations are marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ The sale administrator will layout a skid trail plan at the time of the pre-operations meeting. All equipment operation and skidding shall be limited to these trails and minimized on all other areas.
   ➢ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➢ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing access road system is approximately 8,500 feet. Portions will require minimal "Class 3" reconstruction and freeze down before use.

G. OTHER -
   ➢
--- See the Douglas County Timber Sale Contract and reverse side for terms and conditions. ---

The Tamarack volume contains approximately 76% Tamarack and 24% Black Spruce. The Mixed HW volume contains approximately 46% Red Maple, 23% White Spruce, 18% Scrub Oak, 9% Balsam Fir and 4% misc.
TRACT 13-17 (LAST MINUTE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➤ Clear-cut harvest prescription with an estimated average residual basal area of 1ft2.

B. SEASONAL RESTRICTIONS -
   ➤ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➤ Fell all tamarack, red maple, white spruce, black spruce, balsam fir, and miscellaneous species stems; and all less than 14-inch DBH scrub oak and red oak stems stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➤ Reserve and leave undamaged all red pine, white pine, jack pine, cedar, yellow birch, and white birch stems; all 14-Inch and greater DBH scrub oak and red oak stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➤ "Slashing Maintenance" is required.
   ➤ Operations shall minimize to the greatest extent possible any damage to advanced regeneration.
   ➤ Access road system may be utilized for product decking.
   ➤ Two landing locations are permitted as designated.

F. ACCESS AND ROADS -
   ➤ The total length of the access road system is approximately 2,500 feet.
   ➤ The entire 2,500 feet will require "Class 4" new construction.
   ➤ Significant portions will require freeze down before use.
   ➤ An "Earth Berm" shall be installed at a location designated by the Sale Administrator.

G. OTHER -
   ➤ The access road and landing locations requiring new construction are not marked in the field. The Sale Administrator will locate, identify, and flag these in during the pre-operations meeting.

TRACT 03-19 (HEMLOCK BUCK HW) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has an all-aged single tree selection harvest prescription with an estimated average residual basal area of 94ft².
   ➢ Harvest unit 2 has a sanitation thinning harvest prescription with an estimated average residual basal area of 79ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations shall be limited to frozen ground conditions only.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell, skid, and haul all aspen, white birch, red maple, sugar maple, yellow birch, basswood, black ash, and balsam fir stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all non-marked stems and all sub-merchantable red oak, yellow birch, and sugar maple regeneration.
   ➢ In harvest unit 2, reserve and leave undamaged all cedar, hemlock, red oak, white spruce, and white pine stems; and all sub-merchantable red oak, yellow birch, and sugar maple regeneration.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processor and forwarder operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding. Use of any feller-buncher felling equipment (hot saw type or similar) is prohibited.
   ➢ Up to three landing locations shall be identified during the pre-operations meeting.
   ➢ Access road system may be utilized for product decking.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The access road is gated.
   ➢ Access across land under other ownership has been secured by the County.
   ➢ The total length of the existing "Class 3" access road system is approximately 13,465 feet. Portions will require minimal "Class 3" reconstruction before use.
   ➢ Three "Freeze Down Crossings" shall be constructed as designated.

G. OTHER -
   ➢ The access road for this sale is currently under contract as access to two other Douglas County Forestry Department timber sales (Tract #36-17 and Tract #47-16). Contractors are encouraged to plan operations accordingly and take the necessary steps to maintain communications and minimize conflict throughout all operations. Contact the Sale Administrator for further information.
   ➢ The Mixed HW cord volume contains approximately 41% Sugar Maple, 15% Basswood, 13% Black Ash, 10% Red Maple, 10% Yellow Birch, 5% White Ash, 3% Balsam Fir, 2% White Birch, and 1% Aspen.
   ➢ The Mixed HW sawlog volume contains approximately 51% Sugar Maple, 20% Basswood, 20% Ash, 7% Red Maple, and 2% Yellow Birch.

TRACT 30-19 (BUCKLEY PINE) – SUPPLEMENTAL REQUIREMENTS
The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ 3rd entry (114 acres) 2nd entry (10 acres) improvement thinning harvest prescriptions with an estimated average residual basal area of 120 ft2.

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ Fell all orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.

D. TREES DESIGNATED FOR LEAVING -
   ➢ Reserve and leave undamaged all non-marked stems.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ All harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ Landing locations will be restricted to the existing road system.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ Portions of the 18,500 feet of existing "Class 3" access road may require minimal reconstruction before use.

G. OTHER -
   ➢ The red pine volume contains significant bolt and sawlog size-class material.
The Red Pine volume contains approximately 88% Red Pine and 12% Jack Pine. The Aspen volume contains approximately 71% Aspen, 26% Scrub Oak, and 3% Misc.
TRACT 32-19 (BACKYARD PINE) – SUPPLEMENTAL REQUIREMENTS

The following terms and conditions supplement those provided in the Douglas County Timber Sale Contract:

A. PRESCRIPTION -
   ➢ Harvest unit 1 has a seed tree harvest prescription with an estimated average residual basal area of 19 ft².
   ➢ Harvest unit 2 has a 1st entry improvement thinning harvest prescription with an estimated average residual basal area of 85 ft².

B. SEASONAL RESTRICTIONS -
   ➢ All harvesting operations are not restricted by season or time of the year.

C. TREES DESIGNATED FOR CUTTING -
   ➢ In harvest unit 1, fell all aspen, jack pine, and orange marked stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid.
   ➢ In harvest unit 2, fell all orange marked stems and in every third row, fell all red pine stems. Skid and haul all felled stems that meet the product and utilization standards as per product bid. The Sale Administrator will describe the every third row harvest system and designate rows to be harvested during the pre-operations meeting.

D. TREES DESIGNATED FOR LEAVING -
   ➢ In harvest unit 1, reserve and leave undamaged all non-marked stems.
   ➢ In harvest unit 2, reserve and leave undamaged all non-marked stems and all species stems in residual rows.

E. HARVEST AND OPERATIONAL REQUIREMENTS -
   ➢ “Slashing Maintenance” is required for harvest unit 1.
   ➢ Access road system shall be utilized for product decking.
   ➢ In harvest unit 1, sheared stems shall be limbed and topped at the stump prior to product skidding or forwarding.
   ➢ In harvest unit 2, all harvesting operations shall be limited to short-wood/cut-to-length processing and forwarding operations only. Sheared stems shall be limbed, topped, and processed at the stump prior to product forwarding.
   ➢ Landings will be restricted to a small back-in turn-arounds with locations identified during the pre-operations meeting.

F. ACCESS AND ROADS -
   ➢ No new access roads shall be constructed.
   ➢ The total length of the existing "Class 3" access road system is approximately 5,800 feet and may require minimal "Class 3" reconstruction before use.
   ➢ The access road is a winter snowmobile trail.

G. OTHER -
   ➢ The County will complete pre-harvest scarification for specific portions of the harvest unit 1. Please see contract requirements.
